

MISS STONE IS FREE.

Turned Over In Good Health to
Dragoman of American
Legation.

REV. TSILKA WAS ARRESTED.

Accused of Complicity in the Kidnap-
ing of Miss Stone—Husband of the
Woman Taken Captive With Amer-
ican Missionary.

Paris, Feb. 19.—The Temps last evening published a dispatch from Constantinople which announces that Miss Ellen M. Stone has been released by the brigands who have held her captive since Sept. 3 last, and has been handed over, in good health, to the dragoman of the American legation.

The dispatch adds that the "Rev. end Tsilka" has been arrested on the charge of complicity in the kidnapping of Miss Stone.

The companion in captivity of Miss Stone was Madame K. S. Tsilka, a Bulgarian woman, wife of Mr. Tsilka, a Macedonian teacher of Samakov. Miss Stone, while traveling with Madame Tsilka and a party of about 15 friends, was captured by brigands in the district of Salonica, Sept. 3. Since that time vigorous efforts have

MISS ELLEN M. STONE.

been made by the United States government and by missionaries to obtain the release of the captives. The brigands demanded a ransom of £25,000 (Turkish), but only \$72,500 was collected for the ransom, and this sum was paid over to the brigands Feb. 6 by M. Cargulio, chief dragoman of the American legation at Constantinople, and W. W. Peet, treasurer of the American mission at Constantinople, who met the brigands on the road to the Podromo monastery.

Madame Tsilka was educated at the Northfield seminary. At the time of receiving her American training and education she was Miss Stephana, a Bulgarian. Having been converted in childhood to the Christian belief, she came to America, after having refused to marry the man of her parents' choosing. Dr. Dwight L. Moody, becoming interested in her welfare, found a place for her in his noted school. Having finished her training at that institution, she became a trained nurse. While engaged in her professional duties, in the Adirondacks, she became acquainted with Mr. Tsilka, a Macedonian, who had also been educated in the United States. At that period he was preparing for work as a medical missionary. Soon after the completion of their training the couple were married and went to Bulgaria, where they at once entered upon missionary work.

Miss Stone is one of the missionaries of the American board of foreign missions. She has been attached to the Salonica mission since 1878. She was born in Roxbury, Mass., and her home is in Chelsea, Mass., where her mother resides.

RECEPTION TO BAUDISSIN.

Tock a Sleigh Ride in Philadelphia.
Entertained at a Club.

Philadelphia, Feb. 19.—Count Von Baudissin, rear admiral of the German navy and commander of the imperial yacht Hohenzollern, who is in this city as the guest of Lawrence Johnson, brother of the admiral's brother-in-law, Alfred Johnson, was tendered an informal luncheon yesterday afternoon at the University club. Last evening a reception was given in his honor by Mr. and Mrs. Lawrence Johnson, at their home. About 200 invitations were sent out to prominent members of Philadelphia's society to meet the distinguished foreigner.

During the forenoon yesterday Admiral Von Baudissin availed himself of the opportunity to see something of Philadelphia in a sleigh, and when he returned from his drive he was entertained at the University club, after which he paid several social calls

ALLEGED WHEELER'S TALK.

Two Democrats Did In House—A
South Carolinian Said He En-
dorsed It All.

Washington, Feb. 19.—The speech of Mr. Wheeler, of Kentucky, in the house last Friday, when he bitterly assailed Secretary Hay and Lord Pauncefoot and criticized the official preparations for the reception of Prince Henry, had a sequel in the house yesterday. During the debate on the Indian appropriation bill, Mr. Gillet, of Massachusetts, in a half-hour's speech, declared that the intemperance of Mr. Wheeler's language carried its own condemnation. Nevertheless, he (Gillet) grievously deplored such an affront to a foreign country. During the course of the speech two Democrats—Robinson, of Indiana, and Thayer, of Massachusetts, disclaimed any sympathy with Mr. Wheeler's utterances. These disclaimers drew from Mr. Talbert, of South Carolina, the statement that he desired to share in the responsibility of the speech, every word of which he said he endorsed. Mr. Wheeler himself subsequently replied to Mr. Gillet, reaffirming what he had said, and declaring that he would stand by his words whether they were discreet or not. He read a number of letters, telegrams and one cablegram from London, commending his utterances. The incident was the feature of the day.

Earlier in the session Mr. Hill, of Connecticut, and Mr. Shaffroth, of Colorado, discussed the former's bill to redeem silver in gold. Mr. Burleson, of Texas, criticized the president for changing his position on trusts. Other speakers were Messrs. Reid (Dem., Ark.), Sutherland (Rep., Utah), Padgett (Dem., Tenn.), Pou (Dem., N. C.) and Robinson (Dem., Ind.).

The Indian bill itself was not touched in the speech-making.

TO PUT DOWN WAR.

Taft Said Commission Proposed to
Do All It Could.

Washington, Feb. 19.—Governor Taft, of the Philippines, yesterday continued his testimony before the senate committee on the Philippines. He said, in part, that it became evident that the Filipino junta was preparing to locate in that city, making that point the center for their propaganda. General Wright was therefore directed to prepare a law on this subject, and had done so. The denunciation of secret societies had been inserted, he said, because they had been made the chief instrument of agitation against the United States. If the people understood the question there would be no objection to peaceable agitation, but under the circumstances the commission had felt that "the suspension of the right to advocate independence was not such a deprivation of the right of free speech as could not be justified by the presence of war, when for the benefit of the whole people it should be suppressed." At least one of the societies had for one of its main purposes assassination, being thus like the Mafia.

Replying to a question from Senator Patterson as to whether it was the intention to go further in this direction, Governor Taft replied:

"We propose to do all that we can do that is known to civilized nations to put down this war, which is such a great injury to the Philippine people." He said he had not given personal attention to the phraseology of the sedition laws, and he had no doubt that when peace should be restored section 10 would be repealed.

MISS MORTON A BRIDE.

Fourth Daughter of Ex-Vice President
Married to Mr. Rutherford.

New York, Feb. 19.—Miss Alice Morton, fourth daughter of former Vice President Morton, and Winthrop Rutherford were married in Grace Episcopal church. The Rev. Dr. Huntington, rector of the church, officiated. The wedding was simple in the extreme, there being no bridesmaids and no decorations in the church, except two bouquets of ascension lilies that filled the vases on the altar. The ushers were Winthrop Chanler, Egerton Winthrop, Jr., J. Borden Harriman, William R. Travers and Herman Duryea.

The bride was gowned in heavy ivory satin, severely plain, with a veil of Brussels lace that was caught with a slender spray of orange blossoms and fell over the train of her gown. She wore no jewels and carried an ivory prayer-book.

Those present included the Marquis de Talleyrand, Mr. and Mrs. James P. Knickerbocker, Mr. and Mrs. John Jacob Astor, Mr. and Mrs. Adrian Iselin, Mr. and Mrs. Bayard Cutting, Mr. and Mrs. Cornelius Vanderbilt, Mr. and Mrs. Payne Whitney, Mr. and Mrs. Clarence Mackay, Mr. and Mrs. Whitelaw Reid, Mr. and Mrs. Douglass Robinson, Mr. and Mrs. Twombly and Dr. and Mrs. Webb.

Distributed Dividend of \$10,000,000.

New York, Feb. 19.—J. P. Morgan & Co. distributed a dividend of \$10,000,000 to the members of the syndicate formed to underwrite the United States Steel corporation. The dividend represents 5 per cent of the \$200,000,000 for which the syndicate was liable.

NEW COAL COMBINE.

Reported a Company Is to Be
Formed to Acquire Fifteen
Mines in Ohio.

CAPITAL TO BE \$15,000,000.

Morgan Syndicate Back of It—Mining
Properties in Hocking and Sandy
Creek Valleys, Except Those Under
Pittsburg Combine Control.

Columbus, O., Feb. 19.—Reports are current in local coal and railroad circles of the organization of a new coal company by the Morgan syndicate to acquire 15 independent coal mines on the Hocking Valley and Ohio Central railroads. The new company, it is said, is to be known as the Continental Coal company, and the capitalization will be \$15,000,000. The new combine will include all the mining properties in the Hocking and Sandy Creek valleys, with the exception of the new Pittsburg and Glendale mines, which have been acquired by the Pittsburg coal combine. There is a probability that the larger mines on the Columbus, Shawnee and Hocking railroad may also be included in the deal.

According to a local operator the action of the Morgan syndicate is forced by the Pittsburg combine's invasion of the Hocking Valley field. Options were secured on many of the Hocking mines by the Morgan syndicate some time ago, but were allowed to lapse. The Pittsburg combine's purchases have been made since that time. It is said that all the Morgan syndicate's coal properties will be merged with the independent mines under the Continental company and that they will all be under one management, thus greatly reducing the expense of operation.

TRIED TO BRIBE RICE'S SERVANT.

Valet Jones Said Patrick Of-
fered Him Money to Swear
Falsely.

New York, Feb. 19.—After several days of examination and cross-examination of exports, new interest in the trial of Albert T. Patrick, accused of the murder of William Marsh Rice, was aroused late yesterday afternoon when Charles F. Jones, Mr. Rice's valet, who has been charged with being the tool of Lawyer Patrick in compassing the death of the millionaire, was put upon the stand by the state.

Jones, in part, said that Patrick called at Rice's apartments in October, 1899, to see Rice and said his name was Smith. Rice was in bed and the defendant said he would call again. This he did, about a week later.

"It was about 8 o'clock in the evening," said Jones, "I saw him in the parlor. Mr. Rice was in the back room. He spoke of Texas news. Either at that visit or one he paid a week later, Patrick talked about the trial of the claim against Mr. Rice under the will of Mrs. Rice. He seemed much interested and asked if the case had been settled. He said the evidence was very strong in favor of Mr. Holt."

"On his second visit, I think, he told me he was Mr. Holt's lawyer. He told me the terms of a settlement had been arranged and said if I would write it out on the typewriter he would get it signed. He gave me a sheet of paper with the writing in pencil that he wanted copied."

"Did Mr. Rice see Patrick?" asked Mr. Osborne, for the state.

"He opened the door while Patrick was talking to me. I don't think he recognized him."

Jones described the letter Patrick wanted him to write. The letter was to state that Mr. Rice had lost confidence in his Texas lawyer, but that he loved Texas and wanted to return there and wanted the litigation settled. In reply to Mr. Osborne's question, Jones said:

"Patrick was to give me \$250 for it, but he would not give me the money unless I would go on the witness stand and swear that Rice signed it. I refused to give him the letter."

"Patrick told me Mr. Holt had given him \$500 and had promised him \$10,000 when a settlement of the litigation was effected."

Charles L. Tiffany Dead.

New York, Feb. 19.—Charles L. Tiffany, senior member of the jewelry firm of Tiffany & Co., died at his home in this city of pneumonia. He was 90 years old. He had been ill only a few days, but had been kept to his home for some time as a consequence of a fall on Oct. 6, when he seriously injured his hip.

Anti-Trust Bill Defeated.

Annapolis, Md., Feb. 19.—The house of delegates, by a vote, defeated, for want of a constitutional majority, the bill to prevent trusts from transacting business in the state of Maryland. The bill is similar in its provisions to the law now in force in Texas.

RESTRICTIVE INFLUENCE LIFTED

From Trading, Tuesday — Volume
Only About Half Million
Shares.

New York, Feb. 19.—The restrictive influence upon trading of Monday's storm was lifted Tuesday, yet the volume of trading was only about half a million shares. There was some show of strength during the morning hours, but it dwindled during the day and the market generally turned downward. Some stocks which had the advantage of early advances did not suffer materially on the day, but the general level of prices at the end was lower than Tuesday. The disinclination to trade in the stocks of the great railroad systems, especially those of the transcontinental group, was very marked. It might have been due to the efforts making for a revision of transcontinental freight rates, or it might be explained by the growing inclination to await next Monday's session of the supreme court and a possible decision in the Northern Securities case before venturing upon speculative commitments in this group of stocks, which have so much at stake in the decision of that case. Speculative opinion is in a perplexed state as to the merits of the Metropolitan Street Railway plan. The machinery of the plan is so complicated and the bearings of its operation so obscure that little can be made of it, and the general public is inclined to look askance at the securities involved. The interests of insiders in supporting the price of the stock pending the completion of the plan is obvious, but the price ran off more than a point in the late dealings Tuesday. This had a deterrent influence on speculation elsewhere. The same was true of the weakness of Amalgamated Copper, which lost 2 1/2 on the day's dealings. The inability of the efforts to advance Southern Pacific and Sugar were additional influences in the same direction. There was buying to some effect among the coalers, which was especially conspicuous in Reading second preferred and New York, Ontario and Western. Lackawanna made a spurt of 6 points, but reacted. Profitable demands upon the coal companies are said to be more than they can supply, and there are rumors also of proposed further consolidation of the ownership of these roads. Another group which was active and strong was the Southwest cons. in spite of decreases in gross earnings for the second week in February reported by one or two members of the group. The closing was irregular, but there were only slight rallies.

Wabash debenture Bs constituted the bulk of the bond market, but they lost practically all of their gains. Total sales, par value, \$5,200,000.

Favorable to Omnibus Claims Bill.

Washington, Feb. 19.—The senate committee on claims yesterday authorized a favorable report on the omnibus claims bill, and later in the day Senator Warren reported the bill to the senate. As reported, the bill provides for the payment of about 400 claims and makes an aggregate appropriation of \$3,651,812. Many other claims are referred to the executive departments for findings. No claim which has not been passed by either the senate or house is included in the bill.

THE MARKETS.

Pittsburg, Feb. 18.
WHEAT—No. 2 red, 76 1/2c; 77c.

TARIFF BILL VOTE.

It Will be Taken Next
Monday.

TO PROTECT PRINCE HENRY.

He Will be Carefully Guarded
While in Washington—Gov-
ernor Taft's Estimate of
Aguinaldo as a Leader.

Washington, Feb. 19.—The senate has agreed that a final vote on the Philippine tariff bill and the pending amendments should be taken next Monday afternoon at 1 o'clock. The only stipulation made by the minority was that the last day's debate should be devoted to speeches not exceeding fifteen minutes in duration. Senator Wellington of Maryland spoke today in opposition to the pending bill and Senator Stewart of Nevada, in support of the measure. Mr. Wellington's address covered the Philippine question generally. He set forth his well known views forcefully. He always had been a Republican, he said, a believer in the system of protection and a supporter of a gold standard of currency, but he had come to the parting of the ways with his party in 1898, when it developed "its imperialistic tendencies." He opposed the pending tariff bill because he did not think congress had the right to enact legislation by which people were taxed without representation and governed without their consent. Mr. Stewart made a brief legal and constitutional argument in support of the authority of congress to hold the Philippines and to provide a proper government for their inhabitants.

The police department of the city of Washington has taken extraordinary measures to insure the bodily safety of Prince Henry and his staff on the occasion of his visit to the capital, and also to prevent any unpleasant incidents so far as advance precautions and police protection can. Major Sylvester, the chief of police, has been in consultation with Assistant Secretary Pierce at the state department on this subject and acquainted the assistant secretary with the details of his plans. In substance, these contemplate a considerable augmentation of the Washington detective force and such police measures as will cause the detention or expulsion from the city of all suspicious and questionable characters, beginning now, and carrying these measures forward until the Prince has left Washington.

Governor Taft, of the Philippines continued his discussion of the question of tranquility in the archipelago before the senate committee on the Philippines. Speaking of Aguinaldo having General Luna assassinated, Governor Taft said that "under the common law there is scarcely an insurrection general who could not be punished for assisting in securing the murder of other Filipinos. It is the way they have of getting rid of men who do not agree with them."

Speaking of Aguinaldo's personality, Governor Taft said that while his name is probably known better than that of any other man in the islands, his personality was not familiar to the people. "His capture," he said, "in the face of the general impression that he was divinely protected against capture or injury seriously affected his prestige. Personally, he is a man of dignity, though of limited education. He knows how to keep his own counsel and understands the failings of the Filipinos. He knows how to reconcile the differences of leaders and how to avoid rousing jealousy of himself. That he has any idea of civil liberty or of any kind of liberty I have no reason to believe."

Governor Taft was asked today by Senator Culberson of the Senate committee if Philippine newspapers were at liberty to advocate the independence of the islands. He answered that they are under instructions imposed by the statutes, just as others are, which means that they are prohibited while the war continues.

MEMORIAL FUND CROWDING.

Cincinnati Will Not Erect a
Monument.

Cleveland, Feb. 19.—Public interest in the McKinley national memorial is on the increase, as is shown by the increasing volume of letters received. Richard C. Korens, of St. Louis, says Miss and will give \$25,000; Duluth, Minn., will give \$1,500; Youngstown, \$3,000; Cincinnati will not erect a local monument and will turn all funds over to the National association. Toledo, Dayton and Columbus are discussing the same proposition.

SMALLPOX IN OHIO.

Thirty-two Cases Are Reported
from Youngstown.

Columbus, Feb. 19.—The Ohio Sanitary Bulletin, which is issued monthly by the state board of health, shows that there is a serious epidemic of smallpox at Youngstown. It seems that this fact has been carefully suppressed from the outside world by the authorities of that city. During the month of January 233 cases of smallpox were reported to the state board of health, and of this number 32 were reported from Youngstown, seven of these cases proving fatal. There were two other fatal cases, making a total of nine deaths for the month. Since the first of the year 41 cases have been reported from Youngstown. The first case of the epidemic was reported on September 23 last, and since then eleven deaths have resulted from the disease. In January fifty-five cases were reported from Cincinnati and thirty-four from Hicksville, Defiance county, Youngstown being third in the number of cases. But one death occurred in Cincinnati. None occurred at Hicksville. The epidemic seems to be more virulent at Youngstown than at any other place in the state. The cases reported last month were from 47 communities in 29 counties. The majority of the cases are mild, and there have been comparatively few deaths caused by the malady. The epidemic started in the state in 1898. The disease was brought here by a show troupe. Several members of the company contracted the disease and while touring the state communicated it to others. The disease spread rapidly, and while it is under control, attempts to stamp it out have been ineffectual. The advice of the officers of the state board is to the effect that every person should be vaccinated.

AN OLD COUPLE FROZEN.

Amputation of Arms and Legs
of Both Necessary.

Fremont, O., Feb. 18.—Mr. and Mrs. John Glasser, old people, were found in their home today so badly frozen that their legs and arms will have to be amputated. It is not expected that they can survive. They had become overcome by gas several days ago, then the fire went out and they lay unattended until found today.

PLAN TO RUN AWAY.

Superintendent Skeels Saves
West the Trouble.

Superintendent Skeels, of Charity Rotch school, a few days ago, unearthed a plan whereby one of the pupils, Charles West, aged 15 years, who has a mania for running away, intended taking French leave once again. The superintendent consulted the trustees, and it was decided to save the boy the trouble of sneaking away by expelling him. He was provided with transportation to New Philadelphia, his home originally. West, the superintendent says, has been disobedient and unruly ever since he was admitted to the school. Last summer, with several other boys, he ran away, but was caught and returned to the school. This time also he was trying to induce some of the other boys to leave with him.

LIKED IN MASSILLON.

The Renown of the Great Author and
Physician Dr. A. W. Chase is Ac-
cruing to Massillon.

Its by the words of the people that Dr. A. W. Chase's Nerve Pills have come into such active demand. The announcements for this medicine are not dependent on the testimony of people so far away that they cannot be authentic. Its home evidence that convinces because easily substantiated. Its simple statement of things done and told in the words of the relieved.

Mr. Henry Paul, of No. 30 Paul street, Massillon, Ohio, says: "As a tonic I can speak positively and highly of Dr. A. W. Chase's Nerve Pills I got at E. S. Craig's drug store, No. 19 South Erie street. They demonstrated fully with their power to rebuild one, furnish strength, energy and physical vigor. I needed these qualities and got them from a use of the medicine. I am glad to recommend it."

Dr. A. W. Chase's Nerve Pills are sold at 50c a box at dealers or by Dr. A. W. Chase Medicine Company, Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

A Safe Cure for Headache.

Have you ever felt depressed after taking a Headache Remedy, and do you know that it contained a Heart Tonic? I would cure without that depression? Headache Remedy is a Heart Tonic, never depresses, never fails, best and safest cure in the world. Easily taken. Absolutely harmless. 10 cents a package.

Elk's Liquid Cream Balm is an old friend in a new form. It is prepared for the particular benefit of sufferers from nasal catarrh who are used to an atomizer in spraying the diseased membranes. All the healing and soothing properties of Cream Balm are retained in the new preparation. It does not dry up the secretions. Price, including spraying tube, 75 cents. At your druggist's or Elk's, 56 Warren street, New York, will mail it.

When The Prince Comes

In various sections of the country preparations are being made for the reception of Prince Henry of Prussia. It is not often we have royal personages as guests, but when we do have them we generally treat them in a style as nearly royal as our democratic conventions will allow.

Washington, New York, Chicago and Boston are in a fine fury of expecta-

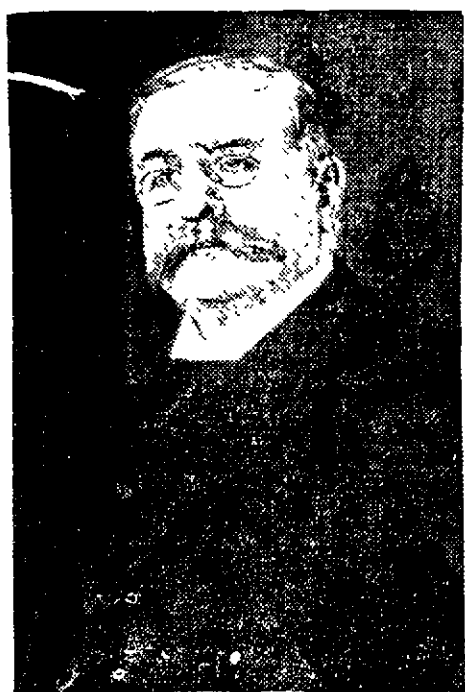

Photo by Cine-dienst, Washington.
HERR VON HOHENHEIM.

tion. They are as busy and flustered as our grandmothers used to be on that eventful occasion when the minister came to tea.

The German embassy at Washington in particular has been the scene of activity, and when the prince comes he will find everything spick and span. The embassy is a substantial red brick structure which stands at the center of the high terrace on Massachusetts avenue, between Fourteenth and Fifteenth streets. It was purchased for the German government by Baron von Thielmann in 1896 and is richly and appropriately furnished.

The suit of apartments which will be occupied by Prince Henry is in the western wing on the second floor. It includes ten rooms and is separated from the drawing room suit by a wide hall adorned with medieval armor and weapons. The bathroom of the embassy, where the state dinners will be served, is decorated with flags of the empire and life-sized portraits of the emperor and empress.

Dr. Theodor von Hohenheim, the German ambassador, has occupied the post since 1897. He is a native of Bremen and took his degree of doctor of laws at Heidelberg. Dr. von Hohenheim is about sixty years old and a confirmed bachelor.

In the absence of Countess Quadt, wife of the first secretary, Mrs. von Rebeur Paschwitz is the chateleine of the embassy. She will preside over any hospitalities that the ambassador may give to which ladies are invited. Mrs. von Rebeur Paschwitz is the wife of the naval attaché, who will also be a prominent figure in the festivities.

Though Prince Henry will stop at the German embassy while in Washington,

REAR ADMIRAL ROBLEY D. EVANS.

he will be the guest of the nation during his stay in this country. This means that all his expenses will be paid by the United States government. To provide the funds for his reception and entertainment an appropriation of \$40,000 will be inserted in the urgent deficiency bill. This sum will be disbursed under the direction of the secretary of state. It will be used to pay carriage, lodging, railroad and other necessary bills.

President Roosevelt has appointed a

How and by Whom Henry of Prussia Is to Be Entertained

committee of government officials to look after the prince while here. This committee is composed of David Jayne Hill, assistant secretary of state; Major General H. C. Corbin, United States army, and Rear Admiral Robley D. Evans, United States navy. Count A. von Quadt, first secretary of the German embassy, will act with the committee.

The committee will meet Prince Henry on his arrival in New York on Feb. 22, accompanying him to Washington that night and attending on all the journeys he will make while here.

A special naval squadron has been organized to meet the royal guest in New York bay. This squadron is made up of the battleship Illinois, which will be Admiral Evans' flagship, and the cruisers Olympia, Cincinnati and San Francisco, with perhaps some smaller craft. The forts at Sandy Hook and the Narrows will fire a salute when the Kropprinz Wilhelm passes those points, and as the big German liner reaches Tompkinsville, on the Staten Island shore, the guns of the squadron will thunder the navy's welcome to the sailor prince.

Prince Henry will land at the Thirty-fourth street pier, North river, and immediately go on board the imperial yacht Hohenzollern, which precedes him to this country. Here he will receive Mayor Low and other members of the New York welcoming party. In company with the committee Prince Henry and his suit will then leave New York for Washington. Sunday will be spent quietly at the German embassy. His formal call on the president will occur Monday, Feb. 21, and the dinner at the White House will probably take place on the evening of that day.

The launching of the kaiser's American built yacht will occur on Feb. 25

Photo by Cine-dienst, Washington.
MRS. VON REBEUR PASCHWITZ

and then will follow a series of entertainments in New York, after which the prince will make a brief tour of the country.

The state department has spared no expense in arranging this part of Prince Henry's entertainment. The Olympia, the private car used by the late President McKinley, will be placed at his service. This flying palace has been entirely refitted. The train used by the royal visitor and his suit will be a revelation. Besides the prince's private car there will be a composite parlor and smoker, a baggage car, one regular sleeper and three stateroom cars. The seven cars will be practically new when they are placed in service.

Prince Henry's itinerary will carry him through thirteen of the most populous states of the Union, exclusive of the District of Columbia. It will cover a distance of 5,000 miles and last about nine days. Visits to the leading cities, as far west as St. Louis will be made. The battlefields of Lookout Mountain, Bull Run and historic Bunker Hill will be inspected, as well as the Annapolis Naval academy and West Point.

According to the arrangements made and that Prince Henry may fulfill engagements made in his name by Ambassador von Hohenheim, Prince Henry will travel mostly by night. This will not preclude, however, a daylight view of the Alleghenies, Niagara and the Mississippi and Hudson rivers.

The car Olympia, which is to be the home of Prince Henry on his railway tour, is seventy feet long and contains five private rooms besides a section for servants. Lavatories, mirrors and wardrobes complete the equipment, and close at hand are the private baths. No two rooms are finished alike, the finest woods being used in their construction. In the rear of the prince's car is an observation and dining room sixteen feet long.

During his stay in this country Prince Henry will be guarded by a corps of secret service detectives. A picked company of European detectives will assist the secret service men in looking out for attacks from anarchists. These guards will be in constant attendance

BUREAU OF CRIMINOLOGY.

National Rogues' Gallery Being Established at Washington.

The city of Washington will soon have a most comprehensive bureau of criminology. Major Richard Sylvester, superintendent of police at the national capital, has established a national rogues' gallery, in which he aims to place photographs and Bertillon measurements of every known criminal in the United States and Canada.

The purpose of this immense rogues' gallery is to create a community of interest among the police of America and to establish a head office, where information may be had concerning any rogue. Under the present system inquiries are made to the chiefs of po-

MAJOR RICHARD SYLVESTER.

lice of all the principal cities, necessitating a great amount of futile correspondence.

In response to Major Sylvester's appeal fifty-two cities of the United States and Canada are contributing to the plan. It is hoped the bureau will eventually become a government institution.

The walls of Major Sylvester's bureau are lined with cabinets filled with thousands of cards, each bearing on its face two photographs of a criminal, one full face and the other profile. On the same side are given the measurements, age and physical characteristics. On the other side are given the name, residence, crime, marks, scars, moles and other defects or abnormalities. In short, these cards make up the Bertillon catalogue used in all modern police departments.

When information is desired from Washington regarding some criminal, his name, aliases, head, finger, ear and other measurements are sent in. It is the measurements that most readily lead to finding the card. Names don't count for much. The cards are arranged in three groups, according to size of head. The superintendent then turns to the group containing the size of head named and if the criminal's card is in the cabinet can soon furnish the desired information.

When the bureau is complete, it will be hard for any criminal of record to escape identification. Plans for the extension of the system to Europe are now being discussed.

SOUSA TURNS NOVELIST.

Famous Bandmaster Is the Author of a Romantic Story.

Those to whom the name of John Philip Sousa is familiar—and they are legion—usually associate it with some popular musical composition or as the director of the famous band of which he has been so long the central figure. But Mr. Sousa has other claims to fame. It is in the field of literature. Mr. Sousa has just published a romantic love story, "The Fifth String."

Mr. Sousa's place in the musical world is, however, second to none. As

JOHN PHILIP SOUSA.

the composer of "Liberty Bell," "Washington Post," "High School Cadets" and other marches he is known in every city and town in the land.

John Philip Sousa is about forty-eight years of age and made his first success as the musical director of the United States Marine band. For twelve years he filled that position, during which time the band gained a world-wide reputation. He left the Marine band in 1902 to take charge of the present organization, known as Sousa's band, which has had phenomenal success, both in this country and Europe.

METEOR'S SPONSOR.

PUBLIC INTEREST CENTERS IN MISS ALICE ROOSEVELT.

Divides Attention With Prince Henry of Prussia—Her Head Not Turned by Unusual Honors—May Wear Ermine at King's Coronation.

Emerging from the obscurity of school life only a few months ago, Miss Alice Roosevelt has in that brief space become a figure of international interest. Although as daughter of the president she naturally attracted much attention, her selection by the kaiser as sponsor for his yacht at once raised her to the position of a celebrity in the public mind. This has been greatly intensified by the probability that Miss Roosevelt will attend the coronation of King Edward, where, as daughter of the head of a great nation, she will be accorded honors usually bestowed only on royal personages. Indeed it is asserted that the visit of Miss Roosevelt would exceed in importance that of Prince Henry to this country.

During the past few weeks Miss Roosevelt, who celebrated her eighteenth birthday on Feb. 11, has been much feted in Washington; nevertheless, and greatly to her credit, she still remains the charmingly unaffected and wholesome girl who made her first bow to the world of society on Jan. 3.

At Shooter's island all is ready for the launching of the kaiser's yacht, Messrs. Townsend & Downey, the builders have sent out about 2,000 invitations for the event. As the island is private property, none but those fortunate enough to hold tickets will be permitted to land. This, of course, does not include official visitors.

Along the side of the marine railway down which the Meteor will slide a christening stand has been erected. It is covered with gay canvas to protect Miss Roosevelt, Prince Henry, the president and guests of honor. The island, yards and buildings will blossom

Photo copyright, 1902, Frances B. Johnson.
MISS ALICE ROOSEVELT

with flags, among which the stars and stripes and the royal standard of Germany will predominate. The German Marine band from the royal yacht Hohenzollern and the United States Marine band will furnish music for the occasion.

Standing beside Prince Henry, holding a flag of wine from the kaiser's cellars, Miss Roosevelt will await the starting of the yacht down the ways. As the boat moves along, amid the roar of cannon, the crash of music and the sound of many voices, the flagon will be dashed against the steel prow, with the words, "I christen thee Meteor!"

Should Miss Roosevelt attend the coronation of King Edward of England, as now seems probable, those familiar with court procedure say she would be received with the most distinguished honor. It is held that the president's daughter would be out of place merely as a young lady in the suit of Special Ambassador Whitelaw Reid. The hard and fast rules of a monarchy, it is said, make it necessary to recognize her completely or not at all.

Court etiquette being strictly observed, Miss Roosevelt would rank with the princesses of the royal blood next to those in immediate station to a throne. If she attends the coronation ceremony, she will wear a robe of crimson or, as it is called, royal purple and will be distinguished from the peeresses by additional bands of ermine and niver. The princesses, of course, will wear golden coronets. Miss Roosevelt would be conspicuous by the absence of this adornment, because her father's dignity is not hereditary.

Court etiquette would also demand that the president's daughter should be lodged at one of the royal palaces. This course would be pursued by the king unless it was the desire of the president that his daughter should visit England merely as a member of the special envoy's party.

Miss Roosevelt's education has been of such a character as to particularly fit her for social life. She has been trained in the accomplishments rather than the solid branches. In music, literature and the French and German languages she is proficient, but had no leaning toward scientific studies.

In appearance Miss Roosevelt is a most attractive girl. Her face is oval and her features are regular and symmetrical. Her complexion is fair and her hair light brown. While not a beauty, she possesses that great element of attraction, perfect good health.

TO ADVANCE THE RACE.

Aims and Objects of the Tuskegee Negro Conference.

Foremost of all the institutions formed by colored people for the advancement of the race is the Tuskegee negro conference, which holds its tenth annual meeting this month at Tuskegee, Ala. This conference was originated by Booker T. Washington and has steadily grown in power and influence under his energetic supervision.

The conference had its beginning a decade ago when Mr. Washington in-

BOOKER T. WASHINGTON.

ited some seventy-five farmers, mechanics, teachers and ministers to meet and discuss the needs and conditions of the colored race in the south. He was surprised to find more than 400 colored men present when he called the meeting to order.

Encouraged by this outpouring, which he interpreted as an indication of a desire to bring about a better condition for negroes in the United States, Mr. Washington threw into the project his whole energy and intelligence. The result was that in two years he had a thousand colored men in conference, and of late years from 2,000 to 2,500 assemble.

Political questions are discussed at the Tuskegee conference. The objects at which it aims are better homes, better schools, a higher degree of skill in their pursuits and the cultivation of a better moral tone among the negro population of the United States.

Booker T. Washington is the principal of the Tuskegee Normal and Industrial institute. The school has been built up under his personal direction and has proved of inestimable value to the colored race in teaching thrift, self respect and a better way of living. Mr. Washington is universally recognized as the foremost man of his race in this country. He was educated at Hampton institute, Virginia, and is a man of superior learning and attainments. Mr. Washington presides at all the sessions of the Tuskegee conference.

NOTED BEAUTY TO WED.

Liane de Pougy, Known as the Handsomest Woman in Europe.

Mlle. Liane de Pougy, the French actress, celebrated as the most beautiful woman in Europe, notwithstanding a previous matrimonial experience is about to marry a Paris stockbroker. Whether or not she will retire from the stage is as yet problematical. The beautiful de Pougy was divorced from her first husband, an officer in the French navy.

For years Mlle. de Pougy has been the most talked about woman in Europe, and it is said that her memoirs, should she write them, would not fail

Photo by Kassano, London.
LIANE DE POUGY.

to be interesting. Her name has been connected at various times with the king of the Belgians, Prince Napoleon Bonaparte and many other men famous in European capitals. Last year while in London, it is said, King Edward paid her flattering attentions and lunched with her several times.

It is said that Mrs. Ogden Golet of New York once had the lovely de Pougy cast out of Ritter's Park hotel at Homburg, objecting to the presence in the hotel with her of such a notorious character.

No Doubt About It.

"Bridget, what did you say to Miss Smith when she called?"
"I told her you were out this time for sure, ma'am."—Harper's Bazar.

A Fireman's Close Call.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bollamy, a locomotive fireman, of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Blisters and, after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed by Z. T. Baltzly. Price 50 cents.

Working Overtime.

Eight hour laws are ignored by those tireless, little workers—Dr. King's New Life Pills. Millions are always at work, night and day, curing indigestion, biliousness, constipation, sick headache and all stomach, liver and bowel troubles. Easy, pleasant, safe, sure. Only 25c at Z. T. Baltzly's drug store.

Breiden's Arnica Salve

Has world-wide fame for marvelous cures. It surpasses any other salve, lotion, ointment or balm for Cuts, Corns, Burns, Boils, Sores, Felons, Ulcers, Tetter, Salt Rheum, Fever Sores, Chapped Hands, Skin Eruptions, Infallible for Piles. Cure guaranteed. Only 25c at Z. T. Baltzly's.

Had to Conquer or Die.

"I was just about gone," writes Mrs. Rosa Richardson, of Laurel Springs, N. C. "I had Consumption so bad that the best doctors said I could not live more than a month, but I began to use Dr. King's New Discovery and was wholly cured by seven bottles and am now stout and well." It's an unrivaled life-saver in Consumption, Pneumonia, La Grippe and Bronchitis; infallible for Coughs, Colds, Asthma, Hay Fever, Croup or Whooping Cough. Guaranteed bottles 50c and \$1.00. Trial bottles free at Z. T. Baltzly's drug store.

Their Claims Set at Rest.

The claim of other cough medicines to be as good as Chamberlain's are effectually set at rest in the following testimonial of Mr. C. D. Glass, an employee of Bartlett & Dennis Co., Gardiner, Me. He says: "I had kept adding to a cold and cough in the winter of 1897, trying every cough medicine I heard of without permanent help, until one day I was in the drug store of Mr. Houlehan and he advised me to try Chamberlain's Cough Remedy and offered to pay back my money if I was not cured. My lungs and bronchial tubes were very sore at this time, but I was completely cured by this remedy, and have since always turned to it when I got a cold, and soon find relief. I also recommend it to my friends and am glad to say it is the best of all cough medicines." For sale by E. S. Craig, Z. T. Baltzly and Rider & Snyder.

Reduced Rates to the West

Commencing March 1st and daily thereafter, until April 30th, 1902, the Wisconsin Central Ry. will sell Settlers' tickets from Chicago to points in Montana, Idaho, Oregon, Washington, and British Columbia, at greatly reduced rates. For detailed information inquire of nearest Ticket Agent, or address T. D. CAMPBELL, D. P. A., 218 Pike Building, Cincinnati, O., or JAS. C. FORD, Gen'l Passenger Agent, Milwaukee, Wis.

Danger of Colds and La Grippe.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous malady. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by E. S. Craig, Z. T. Baltzly and Rider & Snyder.

For Over Sixty Years

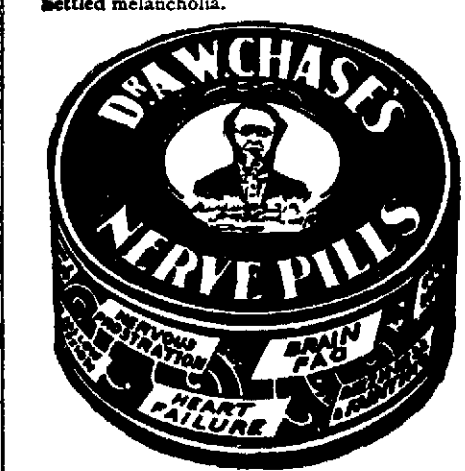

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle.

Nerve Slavery

It is present-day conditions—heaping burdens of work upon the nervous system that tells the story—premature breaking up of health.

It tells why so many men and women, who so far as age is concerned, should be in the prime of health, find themselves letting go of the strength, the power, the vitality they once possessed. It is because that great motor power of the body, nerve force, is impaired. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them are:

Throbbing, palpitating heart.
Sleepless nights.
Sudden startings.
Morning languor.
Brain fog.
Inability to work or think.
Exhaustion on exertion.
Flagging appetite.
Digestion slow.
Food heavy.
Easily excited, nervous, irritable.
Strength fails.
Loss of flesh and muscular power.
Bettled melancholia.

The above is the genuine package of Dr. A. W. Chase's Nerve Pills, are sold by dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y.

For sale by E. S. Craig.

Bear in mind that the want columns is a good investment.

LIGHTNING FLASHES.

HOW THEY ARE EVOLVED AND THE ENERGY THEY POSSESS.

Inhabitants of Compactly Built Cities Have Little Cause to Fear These Mysterious and Destructive Balls From the Clouds.

Without doubt lightning was the first electrical phenomenon that was observed by human beings. To this day it remains the least known and least understood of natural electrical manifestations except, perhaps, the aurora.

There is a vast deal of popular misconception concerning the danger of lightning and the nature of it. The lightning flash is a discharge from a cloud at a high potential with reference to the earth. When the atmosphere is charged with water vapor and some eddy or current in its colder upper strata is deflected downward, causing condensation, exceedingly minute drops of water are formed, each bearing an electrical charge. The condensation of these into larger drops results in a very great increment of the potential of the charge since the capacity of the drop varies with its diameter and the volume of the drop with the cube of the diameter.

The consequence of this is that it takes, for example, eight drops consolidated to make one of twice the diameter of the constituent drops, and the charge on the surface of the consolidated drop will be four times as great as that upon the surfaces of its elements. In this way, as the small water particles unite to form drops which fall as rain, the potential of the charge they carry increases until it attains enormous values, and the lightning flash leaps to the earth, which may be regarded simply as a body of very great electrostatic capacity. The discharge, which is called lightning, is apt to be more or less destructive, although the energy of an individual flash is perhaps not very great. Often the conditions are such that the discharge takes on an oscillating character, producing violent surges of current. No very accurate measurements have been made upon the current involved, but it is taken to be of the order of 1,000 to 5,000 amperes. The electro motive force necessary to cause a flash a mile long is probably several million volts, and of course the power of the flash measured in watts is very great, but its duration is correspondingly short.

Protection of property and life from lightning flashes has been a subject that has attracted the attention of natural philosophers since Franklin sent up his historic kite. The net result of more than a century of attempt to secure protection has been the lightning rod in its more or less inefficient forms and the discovery that buildings of modern construction, having metallic roofs and often metallic frames as well, are practically immune from attack by lightning.

The total number of deaths due to lightning in any given summer is comparatively very small—in the ratio of about one to each 200,000 population in the United States. In cities the destructive influence of lightning is exceedingly small, although occasional fires are caused by it, especially where gas pipes abound.

Protection of electric circuits from lightning has been an interesting subject for research for a number of years, and several highly efficient devices have been constructed for this purpose. Today lightning is little feared by the station superintendent and should be very little feared by any one. The time honored rule that it is wisest to keep in the open and not seek the shelter of trees is one which common prudence dictates. Recourse to the feather bed of our ancestors, however, is no longer necessary except to quiet the nerves of timorous persons, while the ancient superstitions regarding landing steel instruments and sitting in drafts may be utterly disregarded. A modern building in a city is as nearly absolutely lightning proof and those in it are as nearly absolutely protected from lightning as is possible.—Electrician Review.

America's Superior Schools.

In spite of excessive decentralization and the lack of a regulative central authority America has, by making education a local concern, by confiding to each district the organization and control of its schools, by insisting on free public schools in the true sense of those much abused words, created a system which, in spite of its crudeness and obvious imperfections, may yet excite our envy, both as it brings education, secondary as well as primary, within the reach of all and as it is capable of infinite self development and progress, unshackled by the dead hand of ecclesiasticism and departmental routine.—London Chronicle.

Willing to Please.

Employer—I am very suspicious of young men nowadays. You can't tell how they are going to turn out. Why, in six months they know a great deal more about your business than you do yourself and want to manage it entirely.

Applicant For Situation—I can assure you, sir, that if you engage me I will devote as little time as possible to your business.

Doomed Either Way.

Doctor—Mr. Tiffington, your wife will risk her life if she attends that wedding so soon after having the grip.

Mr. Tiffington—Well, doctor, she'll die if she has to miss it.—Life.

When a man really needs a licking, nothing does him more good than to get it.—Atchison Globe.

Money is one thing everybody is after, and yet it always gets left behind.

MARKETING FOR MEAT.

The Different Cuts of Roasts and Steaks—How to Select Them.

The most economical roast you can buy is beef. There are three kinds of roast of beef—the porterhouse, or ten derloin roast, the rib and shoulder roasts. The first costs the most. It has a flat bone through the middle with a tenderloin on the underside and a length of meat and gristle beyond the bone, called the flank. This flank is often cut off before the roast is cooked and corned by the butcher or else is cut off after it is cooked and used with the odds and ends to make soup. In choosing this cut notice that the upper part is wide, the bone narrow and the tenderloin nearly round when looked at from the side. The rib roast should be the first two or three ribs unless you have "money to burn," for as the number of ribs increases the layers of fat and gristle widen, and there is greater waste as well as increased weight.

Notice your cut well, and if you see a water colored line crossing the meat don't buy it. The butcher will tell you it is fat. Don't believe him, for when you get it home and try to carve it you discover to your sorrow that it is gristle pure and simple that defies the sharpest knife and that a roast weighing enough for two days' dinner will hardly do for one meal. This roast can be left as it is, with the bones in, or the bones can be taken out and the meat rolled and skewered. This is done by the butcher. Third comes the shoulder roast, an excellent roast if properly chosen. Ask to see the shoulder; look at it well; buy the upper side and see that the cut you are to buy is where the red part of the meat is good and wide and the white streaks of fat are few. If you get the right cut and have it rolled, it is equally as good eating as the rib roast and costs from 3 to 4 cents a pound less, but if not carefully selected it is not profitable, for there will be too much fat.

Next in order come the beefsteaks—the porterhouse, the sirloin and the round. A porterhouse steak is simply a thin porterhouse roast and should be chosen just as you did the roast—namely, a large tenderloin, a wide upper and a narrow bone. A Delmonico steak is a porterhouse steak without any tenderloin. It costs proportionately less and is most desirable when a small steak is wanted. The best cut for a sirloin steak is just after the porterhouse cuts, where the tenderloin is large, the upper part is wide and the bone narrow. In this steak look out for gristle, or when cooked and served it will curl up like a crinkled rose leaf. The round steak is cut from the leg, either above the round bone or below it. The upper part is more tender and costs a little more than the underside. In my opinion this steak is improved if you have the butcher pound it well on both sides before he sends it home, says a writer who gives the foregoing advice in Good Housekeeping.

Dainty Evening Shoes.

Slippers and dancing shoes being an important toilet item just now, a few illustrations of styles that please are presented. The pretty black velvet shoe

FOR EVENING WEAR.

studded with steel and cut with an exceedingly smart toe is of such good form that it proves exceedingly becoming to the foot. Gold tinselled cloth in place of shoe leather has this advantage, that it will go with any dress and the example in our illustration is daintily embroidered about the toe and is rendered all the more suitable to dancing by the strap across the instep, which keeps it on securely without any fear of it slipping off at the heel. The variety in the ornamentation of evening shoes lies principally in the treatment of the instep, and an uncommon method is shown in a third model which is handsomely beaded with jet on glaze kid.

Fashion's Echoes.

Debutantes' bodices are either fitted into a high square or are cut down to show the line of neck to advantage and leave the neckline worn free from touch of the bodice.

Black velvet ribbon is a decorative detail of evening gowns.

In divers small ways the figure & knot constitutes the low coiffure long foretold.

Gowns are being lined with soft satin. The frons frou of silk is a thing of the past.

Panne is much used in millinery. No material shows off lace better.

Black gowns are prettily relieved by a color which shows itself in the linings of cuffs, lapels, ruches and flounces.

The up to date girl adds to her fur muff an extra removable lining or slip of silk, with a wide frill of lace at either end.

Black chrysanthemums form the latest floral coiffures.

THE AKOUND OF SWAT

HE CALLED FOR THE MOON, BUT IT DID NOT COME DOWN.

An Experiment Which Opened His Eyes to the Difference Between the Theory and the Practice of Things and Incidentally Shortened His Grand Secretary.

[Copyright, 1900, by C. B. Lewis.]

One day, as the akound of Swat had returned from a trip around town, during which thousands of his subjects had knelt to do him homage, he called for his grand secretary and said:

"Remshen, I'm a good deal of a feller, ain't I?"

"You are, O heaven born!" was the reply.

"Would you call me the biggest thing on earth?"

"Truly, but you are!"

"While I'm around on this earth there can be no other boss, eh, Remshen?"

"All other things are but a fly on a bull wheel compared to your extra highness."

"But how about the heavens, Remshen?" continued the akound after chuckling his satisfaction. "I am satisfied that I boss the earth, even to the mountains and rivers thereof, but I'm not exactly clear as to the sun, moon and stars. Don't they come under my rule as well?"

"Dost not remember, O mighty ruler, that your title is Akound the Mighty."

cried out for the moon to take a drop, boss of the earth and owner of all the planets above? Your humble slave assures you that the sun, moon and every star will bustle to do your bidding."

"Thanks, Remshen. I must be a daisy for sure. Not being clear on the subject, I haven't given much attention to celestial matters, but now I think I'll give them a whirl. If a feller is going to be boss at all, he might as well be a boss on wheels."

"That is true, O akound, and when you get ready to command the moon to come off her perch I will issue proclamation and gather the people."

Old Remshen was a fawning sycophant on skates. He had a good thing and wanted to keep it. He had said the same fulsome words to his master a hundred times over, but nothing had come of it except to make his position more solid. A day or two after the above conversation and while he was going around the palace with a molasses grin on his face the bell jingled, and he was called into the presence of his master.

"By the way, Remshen, do you remember our little conversation the other day?" queried the akound.

"Can a slave forget his master's words?" asked Remshen as he lifted his hands in protest.

"I've been thinking. I'm a heap of a feller, and you know it, and I know it, but there may be a man or two on the outside who differs with us. I want to do something big to knock 'em all out."

"Will it please thee to behold a thousand men?"

"Well, yes, it would, but as it is just about tax time we'd better leave their heads on their shoulders until they have paid in the sugar. I think I'll go for the moon, Remshen. She'll be full tonight, and I'll order her to come down to earth."

"But, O ruler, she might be damaged in the fall," protested Remshen, beginning to quake with fear.

"I'll look out for that. We'll spread a feather bed for her to light on. Just issue a proclamation for the people to gather on the east side of my palace at 10 o'clock tonight."

"The moon, O ruler, is sometimes obstinate," suggested Remshen as he felt a pain. "She has even been known to disobey mighty potentates."

"But she'll tumble for me, or I'll know the reason why! Is it not in my title that I am owner of all the planets above? Get along, old boy, and issue that proclamation. When my subjects discover that I can wallop old Luna around at will, there'll be no more kicking about high taxes."

Old Remshen was boxed up and couldn't say another word. He went away and issued his proclamation and then beseeched the grave of his father, the bones of his mother and his lucky stars to send a dark night to knock the experiment on the head. He was looking bilious when night came and the old York state cheese arose in all her glory. Everybody in town was out, and the odds were five to one that the akound would win. At the hour named he appeared on the steps of his palace and lifted his hands and cried out for the moon to take a drop. It was a dead failure. He cried out again and again, but the moon continued her gait. "Remshen," said the boss of earth when he realized that he was knocked out, "diplamas the populace and come with me."

The populace went away with their tongues in their cheeks, and when the

akound had reached his library he said:

"How is this, Remshen? Why didn't the moon come down?"

"O ruler," replied the old sycophant as his heart tunked his ribs, "there is a difference between theory and fact."

"I see. Theoretically I am owner of the planets. Practically I am an ass. I ought to have got on to this, but being so busy it never occurred to me. Remshen, old boy, come out in the back yard with me."

"O mighty ruler, but what would you?"

"I'm going to give another illustration of theory versus fact. Theoretically you are my grand secretary and one of the most eminent men in the kingdom. As a matter of fact you are a head shorter, and your bones will go to enrich my gooseberry bushes!"

M. QUAD.

DOG AND PUPPY CRATES.

Made For the Convenient Transportation of These Animals.

The dog that is shipped by express is likely to travel in these days not only in safety, but also in comfort. There are various kinds of dog crates made especially for such use, some of them flat topped and some of those of later design gable topped and some oval topped, so that nothing can be placed on top of them. Dog crates are made in various sizes as well as styles, some with open, slatted sides and ends, some closed all around, except for the open spaces left for ventilation. Crates for bulldogs and dogs that gnaw are made with slats that, whether separated or set close together, are iron bound, so that the dogs can't set their teeth in the edges.

The dog crate is provided with a cup for water which is so constructed that the water can't spill out of it, and this cup is secured in the crate under the end of a pipe to which there is an opening in the top of the crate through which the dog can be kept supplied without opening the crate at all. Attached to the front of the crate is the dog's buffet, like a long canvas wallet or envelope, in which the dog's food is carried. The dog crate has at the ends handles by which it can be picked up and carried as a trunk would be.

Besides these various sizes and styles of dog crates there are also made in various sizes smaller, lighter crates for puppies, and crates of one sort and another of special sizes are made to order.

First and last there are sold a good many dog and puppy crates, and they are regular articles of stock where dog supplies are sold.—New York Sun.

THE BREAD WAS AN EXTRA.

An English Cafe Charge That Surprised an American.

"One of the strangest things about the management of English restaurants," remarked a gentleman who has recently returned from a visit to London to the writer, "is the custom of charging diners for every slice of bread which they eat. For instance, a day or two before my departure from the British capital I, as a mark of esteem, invited several English friends to dine with me at one of the most celebrated of the fashionable west-end restaurants. Well, the repast was served in a private room, and everything went off splendidly until the coffee and cigar stage was reached and I asked that my bill be brought to me. There, to my utter astonishment, the head waiter, in the hearing of the assembled company, approached me and in a loud voice asked, 'And how many breads have you had, sir?'"

"This question I could not answer, as I had not been engaged in counting the number of slices consumed, but one of my guests, who had evidently kept track of the bread, noticing my embarrassment, said in my behalf, 'Four plates.'"

"Ah," muttered the waiter, 'that's 1 shilling bextra.' And after adding the amount to my bill he handed it to me for inspection.

"Of course I paid for the bread, but I have been wondering ever since I did so why the American custom of not charging for the staff of life is not introduced over there."—Washington Star.

Ancient Origin of Military Salute.

When did the military salute come into use? It certainly dates from the earlier half of the fifteenth century, says the London Chronicle. In the "Speculum Humanae Salvationis," which was issued before the invention of printing by movable types, there is an exceedingly quaint illustration in which Abraham is represented as saluting Melchisedec. The patriarch is in medieval armor and apparently on guard, and it would seem that Melchisedec is bringing him refreshments of water, and the salute is distinctly the military one still in use.

The Earth's Shadow.

The earth has a shadow, but few ever see it except in eclipse of the moon. Nevertheless many of us have noticed on fine, cloudless evenings in summer, shortly before sunset, a rosy or pink arc on the horizon opposite the sun, with a bluish gray segment under it. As the sun sinks the arc rises until it attains the zenith and even passes it. This is the shadow of the earth.

His Gigantic Intellect.

She—What are you thinking about, Harry?

He—Nothing.

She—Aren't you afraid of overtaxing your brain, dear?—Detroit Free Press.

"The man who talk de mos' erbout he fightin' qualities," remarked Uncle Eph, "usually got mighty long laigs."—Atlanta Constitution.

It is said that mate, the South American tea, will sustain life many days without the pangs of hunger.

California Illustrated.

Copy of the illustrated monthly, The Chicago 400, a journal of travel and topics, reaches us by the courtesy of the Chicago & Northwestern Ry. It is one of the finest illustrated publications that we have ever seen. The tinted half-tones rival those of the finest magazines, and the letter-press of the whole edition is as perfect as that of any publication ever issued, pictorially and descriptively mirroring California's wonderful scenery. Copy delivered free on application, or mailed to any address upon receipt of two cents postage by A. F. Cleveland, 234 Superior street, Cleveland, Ohio.

Illustrated and Descriptive Booklets Free.

The following excellent publications prepared by the Chicago & Northwestern Ry. will be sent free to any address upon receipt of postage named.

The information contained therein is of great value to those who expect to travel, either for pleasure or profit. All of the publications are handsomely illustrated with half tone views.

LOCAL HAPPENINGS.

Discovered this Week by Independent Investigators.

Born, to Mr. and Mrs. Julius Schneider, a son.
Mr. and Mrs. John E. McLain are visiting in New York.

Miss Emma Defenbacher, of Canal Dover, is visiting Miss Lucile Edgar of this city.

John Baumgardner, aged 60, a farmer living near Akron, was instantly killed on Tuesday by a tree falling on him.

A party of Kent business men have leased Lake Brady and will reopen it as a summer resort on a magnificent scale.

Miss Margery Dunn, of San Francisco, is visiting at the home of Mr. and Mrs. Theodore Focke, in East Oak street.

Sebastian Huwig entertained a small party of West Brookfield friends at his Wooster street home Saturday evening.

Miss May L. Macpherson and Peter A. Slayman were married by the Rev. S. K. Mahon, at the home of the bride, Sunday afternoon.

Funeral services for the late Mrs. John Piper were held at the George street residence Sunday afternoon. Services were largely attended, many people from Navarre, of which place the deceased was formerly a resident, being present.

Members of the choir of the Presbyterian church, accompanied by the Rev. and Mrs. J. F. Clokey, made up a sleighing party which drove on Monday evening to East Greenville where they became the guests of Dr. and Mrs. J. F. Campbell.

A "novelty social," held by the ladies of the Richville Reformed church, at the home of Mrs. Mary Erb, Saturday evening, was a financial and social success. Attractive looking packages were sold to the highest bidders and afterwards a good supper was served. The entertainment netted \$30.30.

Forty friends and relatives drove to the home of Levi Volkmar, two miles east of the city, in bob sleds Sunday afternoon. Progressive euchre and other games of various kinds were played. Theodore Hoke and Mrs. John Haag were awarded the first prizes. Julius Deck and Mrs. Adam Stephan the consolation prizes. After the game a delicious supper was served by Mrs. Volkmar. The party arrived in the city at about 10:15.

A marriage which took place in Akron last March, purely as a business proposition, has proven a failure, and Fisher B. Ames has sued for divorce. He is 33, and his wife, who was Mrs. Abbie Rose, is 67. She was a dressmaker, he a paperhanger. They admitted that there was no sentimentality about their marriage, but they proposed to pool their earnings, divide expenses and thus live cheaper. Ames alleges that his wife has refused to go to church, or to allow him to go, or to say grace at meals.

The friendly interest and enthusiasm with which Germans in the Fatherland regard Prince Henry's coming visit to the United States is evidenced by expressions in a number of letters received from relatives by German-American citizens in Massillon. "We are looking forward with such pleasure to hearing about Prince Heinrich's pleasures in America," was the message in one of the communications which was shown to a reporter. "We can talk about little else but the visit of our beloved Kaiser's brother among you," was another.

The current issue of the Tattler, an English magazine devoted to society and the drama, contains an excellent likeness of Miss Nellie Gribble, formerly of this city, now traveling as a star with an English theatrical company. Miss Gribble's stage name is Miss Hester Traill. The Tattler says: "The American player has invaded even the provinces, for Miss Hester Traill, who has been touring the provinces as Nell Gwyn, comes from over the sea. She has also appeared in Wilson Barrett's Roman Rye. Her chief recreation is riding and she is often seen in the Row." Miss Gribble has been on the stage since last August. She completed her studies in London.

Hamilton Schugler, postmaster at Bellevue, in Huron county, has been missing since last Saturday and the office is in charge of a postoffice inspector. He confessed to his bondsmen about a month ago that he was \$1,000 short in his accounts. They advanced him the amount of his shortage at that time, under promise that he would repay the amount in monthly payments. His inability to meet this payment is thought to have caused the bondsmen to take the matter up with postoffice authorities, and the same fact is supposed have caused the postmaster to leave for parts unknown and take additional funds with him. The inspector has not yet completed his examination of the books, but it is thought the accounts will be found several thousand dollars short.

The report for January of the Ohio section of the climate and crop service of the United States weather bureau says that the wheat plants

through the state are generally small. In some southern counties the seed did not germinate, and in all sections the plants made but little growth before winter set in. There are many reports of injury by freezing and thawing at times when there was no snow protection; dry, windy weather also had an unfavorable effect, and in some instances the leaves of the plants have turned brown; one correspondent remarks that the wheat fields are as brown as the road. The snow of the last part of the month was of much benefit, and at the close of the month practically all of the state was covered with snow. On the whole, the condition of wheat is less promising than at the end of December. Peach buds have been badly injured by the cold weather, particularly the tender varieties. Stock continues in good condition.

RE-OPEN THE FIGHT.

Eight-Hour Day for Engineers Again Demanded.

THE MINERS AND OPERATORS.

Joint Conference to Take Place in This City Next Month—Call for the Miners' Convention Issued by President Legg—Other Mining News.

At the joint conference of Massillon district miners and operators to be held next month, the old fight for an eight-hour work day for the stationary engineers employed at the mines will be re-opened. President Robert Legg, of the sub-district branch of the United Mine Workers, who has issued a call for a district meeting of miners, says that the outlook is bright for the engineers. "It was shown conclusively at the national conference," remarked he today, "that we have the right to demand this condition for the engineers of this district. It was maintained last year that we had not this right."

Mr. Legg represented the engineers and several miners' locals at the recent national convention.

THE OFFICIAL CALL.

Official notice to the miners and mine workers of Sub-District No. 3 of District No. 6, greeting: A convention will be held at the Trades and Labor Assembly hall Thursday, March 6, for the purpose of reforming the sub-district scale. Local unions are requested to be present by a delegate, as there is business of importance to transact. The convention will be called to order at 10 o'clock sun time.

ROBERT LEGG, Sub-District President.

JOHN MORGAN, Sub-District Secretary.

OFFICIALS' MEETING.

Programme to be Carried out in Canton on February 22.

The Stark County School Officials' Organization, an association formed last year for the purpose of investigating and discussing all matters in which boards of education are interested and whose work is expected to be auxiliary to that of the organization of boards of education of the state, will hold its next meeting in the high school building at Canton on Saturday, February 22. Following is the programme:

MORNING SESSION, 9:30.
Opening Exercises—Conducted by
Supt. E. A. Jones, Massillon, O.
Taxation for School Purposes.....
Adm. Pomeroy, Canton, O.
Taxation for School Purposes.....
C. A. Kridler, Massillon, O.
School Libraries.....
J. W. Guthrie, Principal of High School, Alliance, O.
School Libraries.....
Supt. J. E. Schrantz, Lake O.
AFTERNOON SESSION, 1:00.
Miscellaneous Business.
Progress of Rural Schools.....
Jacob Grossman, Paris, O.
Progress of Rural Schools.....
Owen J. Evans Oval City, O.
School Boards—City.....
Robert Day, Massillon, O.
School Boards—Village.....
Supt. E. A. Richardson, Navarre, O.
School Boards—Township.....
John Taylor, Marlboro, O.
School Legislation.....
Hon. L. D. Bonebrake, State School Commissioner.
School Legislation.....
Hon. Clark Metzger, Richville, O.

PIG IRON SCARCE.

Many Mills Shut Down, but None in Massillon.

The scarcity of pig iron, which has caused many mills of Ohio and Pennsylvania to shut down, has not affected Massillon concerns as yet. The Massillon Iron and Steel Company but recently stocked up heavily with pig iron, and no suspension of operations is at all probable. The company says that its only difficulty at present is to procure shipping facilities.

AMERICAN SHIP SUBSIDY.

Proposed Bounty Would Give Our Ships Advantage.

London, Feb. 19.—The Daily Mail this morning editorially discusses the effect upon British shipping of the American ship subsidy bill. It contends that the bounty suggested by Senator Frye will completely counterbalance the advantage now held by British shipping, but that American ships entering British ports should be fined to the extent of their subsidy, is impracticable, and even if it could be carried out could not meet the situation.

COUNTY SEAT NEWS.

The Shufelt Case Still on Trial.

PLAINTIFF'S TESTIMONY ALL IN.

Divorce Proceedings Against Canton Fireman Now in the Workhouse—Land Purchased on Which a College Will be Erected—Extension of Time Granted Street Railway Company.

Canton, Feb. 19.—The testimony on behalf of the plaintiff in the contested will case of Edward M. Shufelt against the Massillon Cemetery Association and others, to set aside the will of Anna E. Shufelt, was concluded before Judge Hote in common pleas court Wednesday morning. The witnesses for the defendants are now being examined. The indications are that the case will occupy another day in trial.

Ingrid M. Bry has begun proceedings in common pleas court for a divorce from Charles A. Bry. The plaintiff, in her petition, says that she was married to the defendant March 21, 1895, and that they have no children. The plaintiff says that she has always conducted herself as a good and faithful wife and alleges that Bry has been guilty of extreme cruelty and habitual drunkenness. Plaintiff asks for a decree in divorce and reasonable alimony. A temporary injunction was allowed by Judge Harter restraining the city of Canton from paying to the defendant any wages due him and Bry is also enjoined from disposing of the household effects or in any way interfering with the plaintiff. Bry is a member of the Canton fire department, and has been attached to No. 3 hose house. He is at present serving a sentence of thirty days in the workhouse for beating his wife.

Canton is to have a college, is the announcement made by those interested. A deal has been closed between the promoters and the real estate agency of C. A. Daugherty & Co. for twelve acres of land at the corner of Meyer avenue and Fulton street, upon which the promoters of the new institution propose to erect a Biblical institute. The consideration was \$6,000. The contract has been closed and the money paid which, according to those most interested in the project, is an indication that there is money back of the school.

The last tenant has moved out of the Hurford House property and the work of demolishing the building will now proceed rapidly.

The city council has granted an extension of one year, or until January 1, 1903, to the Stark Electric Railway company for the completion of the line from this city to Alliance. In a letter to the council, the president of the railway company says:

"As you are doubtless aware, since the gentlemen who are in control of the affairs of this company became interested in the enterprise in July of 1901 the construction of the road has been pushed with the utmost speed. Not only has the grading between Alliance and Canton been hurried as much as possible, but the roadbed has been constructed and is now nearly ready for the rails from Alliance to Sebring, O. We have also been engaged in the construction of a new power house in the city of Alliance, which is now nearing completion. In short, it must be apparent to everyone, in view of the great amount of work that has already been done, that the completion of the entire line is now a matter of but a very few months."

In the appropriation case against land owners south of Massillon, in which the C. L. & W. Railroad Company seeks right of way to straighten their line, the following jury has been drawn: Jacob Motter, Frank Alexander, Calvin C. Clay, Samuel Myers, Arthur T. Hilles, Jeremiah Stoner, James Parker, Daniel Parr, John Wolf, Jacob D. Walter, William L. Nash, Christopher Strohm, John Brillhart, John Kitzmiller. The hearing will begin in probate court next Monday.

GAME BILL PASSES SENATE.

Summary of Its Most Important Features.

Columbus, Feb. 19.—The senate passed the Archer game bill in practically the form in which it was drawn up by the Fish and Game Commissioners. The only amendments made by the senate grant full protection to the dove, authorize the killing of no owls save the great horned owl, and allow land owners or tenants to kill squirrels or rabbits found on their premises at any time.

A brief summary of the most important provisions of the bill, as passed by the senate, is given herewith: Doves, killdeer, swallows, bluebirds, meadow larks, gulls and buzzards, and the nests and young of all song and insectivorous birds are included among those which are fully protected at all seasons. The open seasons for game are as follows: Quail and wild turkey, November 10-December 15; woodcock or squirrel, September 1-December 15; rabbits (by gun), November 10-December 15; rail, plover or snipe, September 1-December 15, and March 15 May 1; ducks, geese, swans, coots or mudhens, September 1-December 15 and March 15 May 1. It will be noticed that provision is made for two seasons for duck shooting.

The amount of game which one hunter may bag in one day is limited as follows: Quail, woodcock, geese, plover or snipe, 18; duck, 25; squirrel, 10; pheasants, prairie chicken or grouse, 6. Prairie chicken, ruffed grouse, Mongolian pheasants, and English pheasants are protected until November 10, 1904.

The bill makes it unlawful to buy, sell, expose for sale, offer for sale, or have in one's possession any game birds or animals except rabbits during the closed seasons or to kill them for sale or shipment.

No person must hunt upon another's property without written permission of the owner, agent, or tenant thereof, under penalty of fine. Wardens are given the right to inspect any receptacle containing game believed to have been killed in violation of law.

No set-lines of any sort must be used in catching fish. Blue gills and common sun fish are protected from May 15 and July 1. There must be no fishing through the ice in the waters of the state and black bass caught in the state's waters must not be offered for sale.

After May 1, 1902, no person must hunt on another's property without a hunter's license, issued by the clerk of the courts. The fee for residents of Ohio is one dollar and for non-residents, \$25. The money realized from this source is to be turned into the state treasury, to be used in paying salaries and expenses of district wardens.

AKRON MAN'S INVENTION.

Teeth Extracted Absolutely Without Pain.

Akron, Feb. 19.—Thomas W. McCue, of this city, has invented a machine which Thomas A. Edison declares to be the coming invention of the age. For five years Mr. McCue has been at work upon an electrical machine which will make dentistry and surgical operations of all kinds painless, and that he has succeeded in his means live nerves have been removed from the teeth without the patient feeling any pain whatever. Mr. Edison, who frequently visits Akron, at the home of his wife, has examined thoroughly the machine and expects to come to Akron soon for the express purpose of having operations performed upon two molars which have heretofore defied the dentists.

Mr. McCue's machine in effect "short circuits" the pain and prevents it from reaching the brain. To do this a feat has been accomplished which all electricians declared to be impossible, namely, the reduction of the electrical current to the one hundred thousandth part of a volt.

Got It In The Neck?

Why didn't you have TONSILINE where you could use it the moment you first felt the SORE THROAT

Cures promptly and effectually. A simple, efficient remedy for any mouth and throat disorder. Aborts Quinsy. Prevents Diphtheria and contagion. Cures sore mouth, hoarseness, croup. 25 and 50c. at your druggists.

INSURGENTS SURRENDER.

Largest Band in the Province of Batangas.

Manila, Feb. 19.—The largest existing band of insurgents in Batangas province surrendered yesterday to Lieutenant Chas. D. Rhodes of the Sixth cavalry, at Banar. It included a major, two captains, six lieutenants and ninety-eight soldiers, with a quantity of arms and ammunition. They were virtually forced to surrender.

H. Evan Williams, Major, and Glynn Miles, lieutenant, at the New Armory, Thursday, Feb. 27, 1902.

Bel Phone No. 132. Massillon Phone No. 2

We would not try to raise turkeys on the farm unless we lived at least one half mile from a neighbor.

Cold storage creamery butter bought last June at 16 to 17 cents held and sold in January at 19 cents does not seem to be a bonanza.

A fruit box making machine has been invented which will make these boxes and baskets for a fifth of the former cost. The next thing will be a machine to pick the fruit, and then we will all be happy.

We saw a man haul in a load of oats, a little damp, in the year 1896 and sell the load for \$2.50. The same man hauled in a load the other day of the same number of bushels and got \$21.50 for it. Times have changed.

Passing by a poultry yard in the country not long since, we saw over 200 Buff Cochins in one flock, as pretty a sight as we ever saw in the line of poultry, sleek, stately, peaceful and dignified fowl, looking for all the world like a Methodist conference.

The owner of a very good one hundred and sixty acre farm said to us lately that he had come to the conclusion that he had too much land; that he was going to dispose of half of the farm and work the balance better. He struck us as being one of the wisest men we have met for many a day.

The sum of \$100 per year in cash and what eggs and chickens the family can use are easily obtained from what poultry may be kept upon the average farm homestead given ordinary care and attention. This sum may be increased to \$200 where more fowls are kept and more attention given them.

There are all sorts and breeds of microbes—those which give the fine flavor to butter and cheese and those which spoil them, bacilli which thrive at 100 degrees F. and produce cholera and those which multiply at 30 degrees below zero and hatch out smallpox. Happiness and health seem to depend largely upon what sort of bugs a man eats and carries around with him.

A lady friend of ours who is very successful with her poultry, making about \$200 a year from what she can care for at a farm homestead, tells us that the forcing of the hens to produce eggs in winter does not pay her, that by so doing the productive power of the hens is much impaired and that they are thereby predisposed to disease. Is this a correct conclusion?

We came across a man lately who had several head of nice Shorthorn young stock of both sexes, all eligible to registry and of good families, and the owner complained that he could not find a market for them at so low a price as \$65 per head, the animals being yearlings. He said it was almost impossible to get his neighbors to pay over \$30 for a bull. It is needless to add that the top of the market was never reached by the beef animals of that locality.

The man of sixty should have earned and secured the privilege of doing only just such work and just so much of it as suits his fancy and his strength. At that age work is just as much a necessity to his physical and mental well-being as at any time of his life, but he should be exempt from the compulsory feature of the work of his earlier manhood. The hardworking man who quits work entirely at sixty but cuts short his days, becomes grumpy, capricious, snarly and unlovely, when it is his privilege to enjoy a genial old age.

The culture of tobacco as a crop is extending from Wisconsin into Iowa, 400 loads of tobacco being marketed in one day recently in an eastern Iowa town. The crop brings a return of from \$100 to \$150 per acre, is the worst soil robber known and involves a large amount of work and care as well as special training in order to make a success. While the crop may and probably will be grown to some extent, we do not believe it will in the long run pay Iowa farmers to convert their cornfields into tobacco plantations.

The very heavy losses sustained by stockmen the past few months as a result of turning their cattle into the cornstalk fields have brought out much so called information about this trouble. After looking carefully over what the scientists have to offer we find that they do not all agree as to the cause, some assigning the trouble to smut or a fungous growth and others to a dry murrain. Cases are cited where the smut was fed to the extent of half a bushel per day to one animal without injury, while the most careful feeding of the stalks resulted fatally.

Altitude seems to bar hog cholera, an elevation of 3,800 feet securing immunity for the pig from this disease.

If the ladies will just watch the hawker do up the horse's tail before taking it out for a drive on the muddy road, they will catch on at once to the very latest style of doing up their own hair. No need for fashion plates now.

On rolling and hilly lands under the plow in a regular rotation of crops nothing so well prevents the washing of the soil as to have it well filled with clover roots, and nothing else will be so good for the crop as a source of humus and fertility.

In the hill countries where the land is under the plow it is good policy to keep all the draws and natural waterways in soil, even if the fields are thereby broken up. The water must find a way off during heavy rains, and where these waterways are under the plow the loss by erosion is very great.

When a young man first goes a-courting, he always likes to take his best girl out riding behind a showy and high strung nag. As he gets further along he prefers the staid old horse on the farm or in the livery barn. Queer, is it not? The reason, however, can be found if one will look far enough.

We always put faith in a boy who is not afraid of work—good hard manual labor. Work is the best developer and preserver of the moral and physical qualities which go to make up a manly man. Show us the plodding, industrious boy not ashamed of good hard work, and we will show you the future successful man, and if he sings while he works so much the better.

A boy friend wants to know what four footed animal can run the fastest. Asking some boys what they thought, one said a deer, another an antelope and another a jack rabbit. While all of these get over the ground at a pretty lively rate, none of them can go quite as fast as the greyhound, which can move at the rate of about twenty yards in a second. Now you boys can figure out how many miles an hour that is.

We came across a man not long since who has built up quite a patronage as a breeder of pure bred Poland-China hogs, and we incidentally found out that his brood sows for the next crop of pigs were all, with the exception of one, young sows not over eight months old Jan. 1. In doing this this man is not only doing a serious injury to his patrons, but it will inevitably hurt his trade and good name as a breeder. Pure bred stock intended for breeding purposes should never be the product of an immature parentage, but of aged and well developed stock.

Prices of almost all kinds of farm produce are at the present time out of balance, so high that farming has become one of the most lucrative of employments. This condition will not continue. The economic law of supply and demand will get in its work and restore prices, if not to their former low level, at least to a harmonious relation between cost of production and market value. The man who is buying high priced land on long time expecting 1901 returns from the crops is preparing the way for some mighty hard sledding on dry ground inside of three years.

PIANOS AND HOGS.
While waiting on a train to let a westbound freight pass recently we noticed two freight cars which followed each other particularly. One was loaded with hogs bound for Omaha and one with pianos. This combination, hogs and pianos, very fittingly represents the present condition of western agriculture, the symphony of the hogyard passing by a beautiful evolution into the sonata and nocturne of the piano—the old granger shoveling corn into the hogyard while his daughter runs trills and fantasias on the piano in the parlor, a clear case of cause and effect.

NO SUCH BOOK.
A friend writes and wants us to give him the name of some book which will tell him all about the new localities of North America, their climate, products, rainfall and all that, so that a fellow can find out where to go to get some good cheap land. There is no such book published, the makers of books these days being given to the historical novel and love scrapping yarns. A book which would impartially and fairly set forth the facts as to all the newer parts of the country, giving full information such as a seeker for a farm and home would naturally desire, would be in great demand in this restless, migratory age of ours. What pamphlets and books are issued are by interested persons who are looking for suckers and never give all the facts.

BEARDS AND BACTERIA.
And now comes the New York state milk commission and issues the edict that the men who milk the cows which supply the city with milk must shave off their beards and wear smooth faces, for the reason that beards are supposed to be nests of bacteria. This would seem to suggest the great propriety of employing only women to do the milking and thereby avoid the sacrifice of these natural appendages given by the Creator to cover up an ugly mug. If the beard has to go, why not the hair of the head, and this suggests a new use for the Chinaman minus his cue, for he would not have to shave his face, not being given to whisker development. It is evident that if the present rate of progress in dairy matters continues the old hair in the butter is likely to become at best only a pleasing fiction.

WINTER MELONS.
A variety of both musk and water melons imported by the agricultural department from Asiatic Russia which will keep all winter is proving a great success in Utah. These melons are picked in October and require two months to ripen after picking and are at their best in January and February. They are said to be equal in flavor to the best of the summer melons and are becoming very much sought for. They were unknown in this country five years ago.

BEWARE OF THE BULL.

One of those all too common tragedies where the old man falls a victim to the bull at the head of the herd comes under our notice this week, the old man being run into a corner of a barbed wire fence and jammed all to pieces by the infuriated brute. Not the ugly dog in the neighbor's yard, or the smallpox, which drives a whole community wild, or the dead gasoline can, or the carnivorous corn shredder, or the gun in the hands of the small boy, is a thing to be so much feared as that quiet, jolly brute in the barnyard who is given by his owner a reputation as immaculate as that of a presiding elder, but who when the fit takes him, as it is more than likely to do sooner or later, becomes in an instant a merciless engine of destruction with which man is utterly unable to cope. To all intents and purposes he is a ton of agricultural dynamite, and should be handled and cared for with as much caution as this most unreliable and deadly explosive. Good reputations count for nothing with bulls. They should always be out on parole, with the vigilant eye of the authorities upon them. It is a most wretched ending of a long and successful agricultural career to be bunted to death by a bull on the farm one has worked so hard and so long to develop and improve.

SEEDTIME.

It will soon be seedtime again, and the question of seed will come to the front. No law affecting agriculture works with more relentless and merciless precision than this: "Whatsoever a man soweth that shall he also reap." The man who plants small potatoes, the tips and butts of corn and uncleaned and small grains deliberately invites a crop of inferior quality, while the man who will carefully select all his seed, often changing for the best seed grains and roots produced north of his locality, eliminating all immature, dwarfed, imperfect seed, by the operation of the same law invites the best which nature can give him. If you have, for instance, a rather sandy loam soil which you wish to sow to wheat, oats or barley next spring, it will pay you well to sell your seed grain and buy seed raised on some stiff clay soil some distance from you, or vice versa. We believe that there is a definite loss connected with using the same grain for more than three years on any farm. Especially will such change be found beneficial in potatoes.

UNDERGROUND LARCENY.

Another case of underground robbery comes to our notice, a case where an old and unflinching well of water ceases to give a supply, presumably because of the tapping of the vein which supplied it by a neighbor, and the old query of what can be done in such a case is fired at us. As we understand the case, just nothing at all. When a man buys a piece of land, he gets title from heaven to China, as high above him as he can see and as far below him as he can bore. If he strikes water, gas, oil, mineral and coal, all are his which are included within the surface boundaries of his land. If in boring for water or oil or gas he thereby taps the source of supply of his neighbor's well, it is his good luck and his neighbor's bad luck, provided his supply comes through natural avenues, but if he dug down and then bored longitudinally to tap his neighbor's supply he would be liable for trespass and damage. The only relief in sight for the case suggested is to drill deeper and strike another vein.

WANTS A STOCK RANCH.

A gentleman living in Chicago writes us that he has \$20,000 which he wishes to invest in a stock ranch and wants to know where to locate. He can go to the range territory of Oklahoma or Texas and find good openings for investment, or he can try the range country of the western Dakotas with almost equal promise of success, or he can take up the breeding of blooded stock on the higher priced lands of the Mississippi valley in the corn and clover country and perhaps do just as well. If the question of health for himself enters into the matter, as in this case it does, we would recommend the Dakota plan as the best. A five year bond with Dakota range conditions will make the rundown, wheezing Chicago business man feel like a three-year-old corn fed Dakota steer—make him all over of such good stuff that he will not care a cent whether school keeps or not.

NOT UP TO 1882.

While prices for corn and its meat products have ruled high of late, they still do not yet touch the top notch figures of 1882. In that year beef reached \$9.30 and the average price for the whole year was \$6.25, while corn touched 81 cents in July and that on a crop considerably in excess of that produced in 1901. Hogs went up to \$9.35, and the average price for the year was \$7.63. Present conditions would seem to favor a still higher range of prices on these products than now prevails before a new crop is ready for market.

WINTER MELONS.

A variety of both musk and water melons imported by the agricultural department from Asiatic Russia which will keep all winter is proving a great success in Utah. These melons are picked in October and require two months to ripen after picking and are at their best in January and February. They are said to be equal in flavor to the best of the summer melons and are becoming very much sought for. They were unknown in this country five years ago.

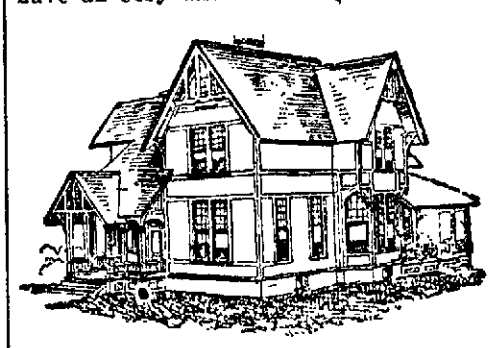

J. S. Trigg

NEAT COUNTRY HOUSE.

Comfort, Economy and Beauty in Dwelling to Cost \$3,000.

This house is situated in one of the pleasantest of New England towns and has a fine view from all sides. The exterior design is plain, yet picturesque, and at once gives one an idea of ease and comfort. The roof over the hall and sitting room is a particularly fine feature, and the elevation of the rear is very striking, the roof over porch being a part of the main roof.

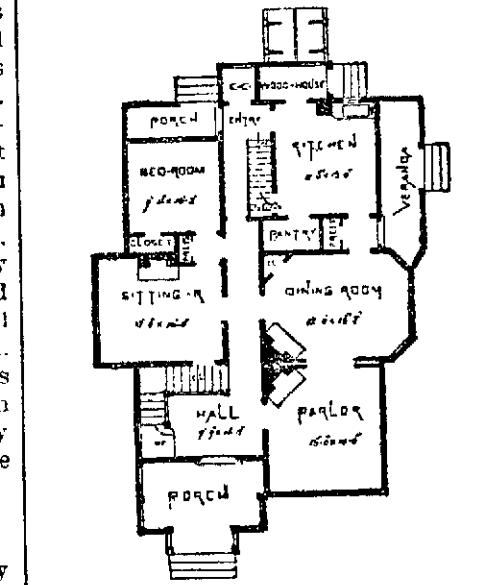

The interior arrangements are very nice, the hall being spacious, and in it we have an easy and handsome staircase of plain design constructed of Georgia pine.

PERSPECTIVE VIEW.

The new design extends up to ceiling of first floor, while the other two posts extend up to ceiling of second floor. In all country houses one of the first things to be aimed at is to secure ample staircases, and until a man can afford space for an easy ascent to a second floor he should stay below, and today we find in houses, where there is no necessity for it, stairs that are little better than stepladders, making a pretense of breadth at the bottom with swelled steps and winding the steps on approaching the floor above, thus making a trap for the old and for the children.

The corner fireplace between parlor and dining room is a feature we indulge in to a great extent in these days of economy, sliding doors and fireplaces, although we

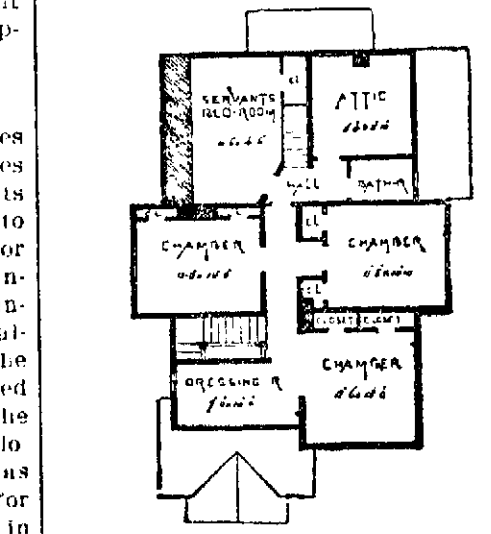

FIRST FLOOR PLAN.

sometimes have clients who object to this, thinking it would not look as well as when placed in center of side walls, but when they are asked how this and that can be provided for with the best and most economical results they readily give in.

There is no water closet in the house, but an earth closet is provided in the rear hall, which is thoroughly ventilated. The dining room is a very cheerful room, and the kitchen is reached through a passage also connecting with wide veranda. The pantry is lighted with a window placed above press. Each fireplace is furnished with a neat hard wood mantle, and the hall is finished in Georgia pine, the floor being laid with this material and finished in natural color.

The exterior is painted as follows: Ground, light slate; trimmings, buff, and chimneys, black. Cost, \$2,925.

The sight of this house in the locality in which it is built is very refreshing and

SECOND FLOOR PLAN.

is greatly in advance of the old styles of rural box architecture to be found there. When people see beautiful things, they very naturally covet them, and they grow discontented in the possession of ugliness. Handsome houses, other things equal, are always the most valuable. They sell the quickest and for the most money. Builders who feign a blindness to beauty must come to grief.

Kitchen Furniture.

A desk for the kitchen is an article of necessity just as much as it is for an office. It should be a large spreading affair, with a flat top and plenty of drawers. This desk can be obtained secondhand and fitted up for account books, receipt books and thousands of little things that are continually getting misplaced. A good chair and a few papers or magazines may tempt one to improve the shining moments in reading while waiting for something to boil or cook.—New Voice.

Indirect Lighting.

In the auditorium and drawing rooms of the University of Wisconsin a system of indirect lighting is to be employed. The lamps themselves will be invisible to persons in the rooms. Opaque reflectors will throw the light from the lamps, which are concealed around the room, on to a dead white ceiling. The ceilings will reflect the light uniformly throughout the rooms. Such a method of lighting is absolutely unique and is not employed elsewhere in America.

Wood Varnishing.

When woods are to be varnished it is necessary to first fill the pores of the wood. All open grain woods, such as oak, walnut, chestnut, mahogany, etc., should be filled with a paste filler, which is also used to change the natural color of the wood. For instance, oak may be filled with a natural filler or with a dark or antique filler, golden oak, sixteenth century, etc. The filler, when partly dry, should be rubbed off with burlap.

Prepare Yourself for Spring

Take Dr. Greene's Nervura, the Best Spring Medicine in the World.

In the spring everybody needs and should take a spring medicine. Spring is the time to be cured if you are sick, and the spring finds most of us in poor condition, blood poor, nerves relaxed, weak, and unstrung, and the organs clogged and sluggish in action.

Dr. Greene's Nervura blood and nerve remedy is the best spring medicine in the world, the best possible remedy for you to take, the one sure spring restorative which will build up your blood, invigorate your nerves, and give you your old-time snap, vim, energy, strength, and vigor.

Dr. Greene's Nervura blood and nerve remedy is purely vegetable and perfectly harmless, and now is the time to take it—now is the time you need it most—now is the time to be cured.

Dr. Orinda Kiscer, 954 Reese Ave., Lima, Ohio, says:

"Many years ago I was unfortunate enough to lose my health, and while endeavoring to regain the same, gradually grew worse, until I became a complete wreck in every respect. My nervous system was entirely shattered, the nerves controlling the heart became weak and the heart's action irregular, which was a source of great alarm to me. I was unable to sleep, digestion was interfered with, and, generally speaking, I considered my time short for this earth. I became discouraged and

The Indian and the Northwest.

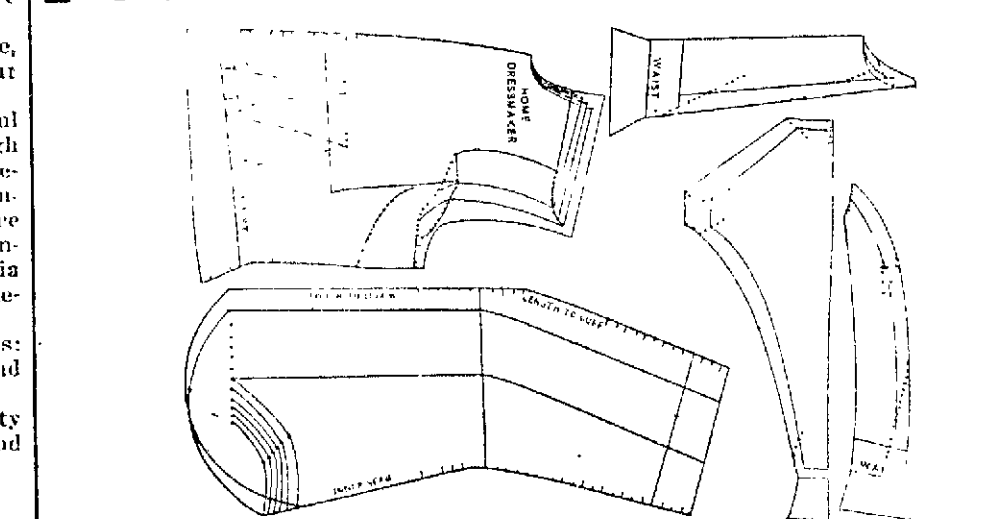

A handsomely illustrated book just issued, and containing 115 pages of interesting historical data relating to the settlement of the great Northwest, with fine half-tone engravings of Black Hawk, Sitting Bull, Red Cloud and other noted chiefs; Custer's battle-ground and ten colored map plates showing location of the various tribes dating back to 1600. A careful review of the book impresses one that it is a valued contribution to the history of these early pioneers, and a copy should be in every library. Price, 25 cents per copy. Mailed postage prepaid upon receipt of this amount by W. B. Kniskern, 22 Fifth Avenue, Chicago, Ill.

The Correct Population of Cities and Towns in the Northwest.

Located along the line of Chicago and the Northwestern Railway, is shown in a booklet just issued by that Company. Copy may be obtained by sending stamp to W. B. Kniskern, 22 Fifth Ave. Chicago.

Come to THE INDEPENDENT office for your job printing.

Free to Subscribers.

THE INDEPENDENT COMPANY has secured a limited number of the famous "Home Dressmakers' Chart" which will be given Free to every subscriber to the Evening Independent who pays three months in advance, and to every subscriber to the Semi-weekly paid up for one year. The Chart is of inestimable value to all women who do their own dress-making.

TRAVELERS' REGISTER.

Change in Time of Trains on Pennsylvania Lines.

Under a new schedule in effect Sunday, Nov. 24, 1901, passenger trains over the Pennsylvania Lines leave Massillon station as follows:

For the East—8:05, 8:55 a. m.; 12:56, 4:18, 7:55, 10:11 p. m.; 2:13 a. m.
For the West—8:35, 10:00, 10:10 a. m.; 5:42, 8:59, 9:47 p. m.; 12:53 a. m.
For particular information on the subject apply to J. A. Shoemaker, Ticket Agent, Massillon, Ohio.

The Cleveland, Lorain & Wheeling Ry. Co.

Schedule in effect Nov. 17, 1901.

THE LESSONS ARE IN VAIN.

Worship of God Grown to
be Perfunctory Matter.

SERMON OF M. W. LOGAN.

Many More Additions Made to
the Wesley Methodist Church,
Where a Revival is Still in
Progress—Special Services
at Zion Church—Other
Church News.

M. W. Logan, a student of Hiram College, preached at the Church of Christ, Sunday morning and evening. The subject of the morning sermon was "What It Means to be a Follower of Christ." The evening subject was "A Test of Sincerity," and in the course of his remarks on this theme Mr. Logan said:

"I believe that we must emphasize the christian spirit in our daily lives. In order to do this we must be sincere in our souls, for no man can follow a true christian life unless he be really sincere in his own heart. In their sincerity the church members must be active and ready to carry the cause of Jesus Christ wherever they go. It is not so much in continually trying to get new members into the church, but in keeping the old members of the church interested, and when this is done they will do the work of gathering in new members. We go to church and hear the word of God preached so much that the lessons which it teaches have no effect at all upon us. We think that in going to church we are doing all that is required of us and when we are through with this world and have passed into eternity, some of the people will expect to hear, 'Well done, good and faithful servant,' as a reward for this small effort."

AT THE WESLEY CHURCH.
Ten persons were taken into full membership by the Wesley Methodist Episcopal church at the Sunday services. There were also several probationers. The revival will continue throughout this week. Many conversions have resulted. The Rev. S. K. Mahon, pastor of the church, conducted both services Sunday. The Rev. Mr. Dawson, of Lorain, who has been assisting Mr. Mahon, Saturday returned to Lorain. He will come to Massillon again Tuesday.

REVIVAL AT ZION CHURCH.
The revival at the African M. E. Zion church is still in progress. Especially interesting services were held Sunday. An elaborate programme is being arranged for the opening of the new parsonage for public inspection.

REFORMED CHURCH.
The Rev. J. N. Burger, of Marshallville, conducted services morning and evening Sunday at the Reformed church. Pastor Foust was absent from the city.

OFFICERS ELECTED.
Stockholders of the C.-M. Electric Railway Meet Today.

Canton, Feb. 17.—A stockholders' meeting of the Canton-Massillon Electric Railway Company was held in the offices of the company in this city Monday morning. Messrs. A. M. Snyder of Cleveland, G. W. Bodinot of Cleveland, J. T. Ross of Akron, C. F. Moore of Akron, O. C. Volkmar of Massillon, and R. S. Shields of Canton, representing a large majority of the stock, were present. Directors were elected as follows: E. W. Moore, of Cleveland; G. W. Bodinot, R. S. Shields, Charles Currie, J. T. Ross and William A. Lynch. The directors then elected the following officers: A. K. Snyder, re-elected vice president; Charles Currie, re-elected manager; G. W. Bodinot, re-elected secretary; Louis A. Leitchot, treasurer. The office of president was not filled at the election, owing to the absence of W. A. Lynch, who has been acting in that capacity. Attorney Shields was asked after the meeting as to the sale of the Canton-Massillon system and the Canton & Akron line. Mr. Shields was reticent about the matter at first but when informed of the interview with Henry Everett, said: "In the light of what I hear I should say that the sale has been made."

If You Could Look
into the future and see the condition to which your cough, if neglected, will bring you, you would seek relief at once—and that naturally would be through
Shiloh's Consumption Cure
Guaranteed to cure Consumption, Bronchitis, Asthma, and all Lung Troubles. Cures Coughs and Cold in a day. 25 cents. Write to C. W. Wells & Co., 12 Roy, N. Y., for free trial bottle.
Karl's Clover Root Tea purifies the Blood

CAN ALWAYS LEARN.

So Says Robert Hammond,
Who Knows.

Robert Hammond, whose misplacing of confidence in woman cost him \$80 recently, is a frequent caller at police headquarters, to keep watch on the progress made to recover his money. The mayor has succeeded in getting back most of the money, and has assurance of the rest. On each of his visits Mr. Hammond is subjected to much good natured bantering by the police court regular attendants. He replies to all sallies that "a man is never too old to learn."

CALL IS ISSUED.

Rev. Mr. Darcy Invited to
Massillon Pastorate.

SUCCEED REV. F. H. SIMPSON.

Congregation of the Church of
Christ Unanimously Ratifies
Its Committee's Action—Mr.
Darcy is a Young Man, Married,
and at Present Located
at Connersville, Ind.

The congregation of the Church of Christ, with unanimity, Sunday, ratified its committee's action in extending to the Rev. George Darcy, jr., of Connersville, Ind., a call to its vacant pastorate, made so by the resignation of the Rev. F. H. Simpson, who is now in Milwaukee. A response to the call is expected today, and the officers of the church say there are good reasons for believing that it will be favorable.

The Rev. Mr. Darcy is a young man, and is married. He comes of a family of ministers. In Connersville he has worked wonders, spiritually and pecuniarily, reorganizing and increasing a dwindling membership, freeing it of its debts and has lately erected a new place of worship at a cost of \$5,000. Mr. Darcy, so far as is known, has never been in Massillon. The congregation learned of him through the Rev. C. C. Smith, of Cincinnati, formerly pastor of the church. He is very highly recommended.

The committee having the matter in charge is composed of C. C. Klein, L. A. Koons and Miss Viola Pepper.

FAULT IN A MINE.

Obstacle in Path of Coal
is Surmounted.

THE NEWS OF NEIGHBORHOOD.

John Davis, of Canal Fulton,
Whose Death Was Announced
Saturday, Served as Post-
master Under Buchanan—
Navarre Items.

North Lawrence, Feb. 17.—The fault in the Klondike mine is being conquered, and the miners are again gradually being returned to their working places. It is believed that when the fault has been worked through a new body of coal will appear on the other side.

The bell in the school house tower is still silent. The board of education seems in a quandary as to what to do. The broken parts have been repaired so often that another repairing "would be mockery" as J. P. Jones says, and no one wants to assume the responsibility of ordering new parts.

NAVARRE.
Navarre, Feb. 17.—Frank Ungashick, who recently had his lower jaw broken in two places in a mine accident, yesterday underwent an operation for the resetting of the bones.

Louis Zgorski, of Barberton, was a Sunday visitor here.

A party of Cantonians danced at the local hotel Saturday evening.

CANAL FULTON.

Canal Fulton, Feb. 17.—The late John Davis, whose death was announced Saturday, was postmaster of this village for twenty-eight years. He was appointed by President Buchanan. Mr. Davis was called the "Father of Fulton," having lived here a greater number of years than any other person. Funeral services were held Monday afternoon at the Methodist church.

The quarterly convention of the Lawrence Township Sunday School Association was held in the M. E. church here Sunday.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure. Doan's Ointment. Absolutely safe; can't fail.

SAVED HIS POSITION.

QUICK WIT LANDED HIM SAFELY OUT
OF A TIGHT PLACE.

How a Clerk Worked Up an Excuse
That Was Gladly Accepted by His
Employer, to Whom He Had Shown
Gross Incivility.

"It's mighty hard for a clerk to be suave and polite all the time," said a department manager in one of the big stores. "A clerk is like any other human being, subject to headaches and indigestion and fits of irritability, and occasionally he will be a little gruff without intending it. When I was younger, a few thoughtless words once came near losing me a good job, and the way I escaped being fired was rather amusing. It happened like this: 'I had charge of the men's furnishings counter in a large clothing store, and the pay being first rate and chance of promotion excellent I was naturally anxious to hold on to the job. One morning, however, I was feeling all out of sorts and was just developing an ugly headache, when a man came in and asked to see some cravats.

"I could tell from his general appearance he was from the north, and he had a curt, semisupercilious manner that irritated me immediately. If I had been feeling well, I would have kept my temper, but my head was throbbing, and when he pawed over the stock, finding fault with everything and sneering at my statements as to quality I began to get crusty.

"Finally I couldn't stand it any longer. 'If you really want a scarf,' I said, 'you'll find plenty here that, I dare say, are as good as anything you've been accustomed to wear.' Just then I happened to look up and caught sight of a floorwalker standing in a rear aisle and making frantic gestures to me with his hands.

"'If you'll wait a moment,' I said to the customer, wondering what the dickens was up. 'I'll see if I can find something else at the other side.' With that I hurried over to where the floorwalker was standing. 'What's the matter?' I asked in a low tone.

"'Great Scott, man,' he whispered, 'that's the boss!'

"The store, as I should have explained, was the southern branch of a New York establishment, and during the time I had been there the head of the firm had never before paid it a visit in person. Consequently I didn't know him by sight, and my blood ran cold when I realized how hopelessly I had rammed my foot into it. During the next five seconds I did some quick thinking, and among other things that came crowding into my mind was the fact that the boss had been married only a short time before. That gave me an idea.

"'I'm going back,' I whispered to the floorwalker, 'and in a minute or two you send one of the boys to me with a piece of folded letter paper.'

"'What are you up to?' he asked. "'Never mind,' said I. 'You do exactly as I say. Let him just hand me the paper and walk off.' I hurried back to the counter and found my man looking black as thunder. 'Sorry,' I said, still as gruff as ever, but that's all we have. If nothing in it suits you, you'll have to go elsewhere.'

"'Very well,' he replied sarcastically, 'and now let me give you a small piece of information. I—'

"At that moment a boy handed me the paper. I tore it open, pretended to read a note, slapped my leg joyfully and proceeded to do a double shuffle on the floor. The stranger glared at me in amazement. 'What the deuce is the matter with you?' he growled. 'Are you crazy or just drunk?'

"'Neither!' I cried. 'I am simply relieved, inexpressively relieved and rejoiced! You must pardon this idiotic exhibition, my dear sir. I went on earnestly, 'and I hope you will also pardon my gross rudeness to you a moment ago. I was beside myself with anxiety and didn't know what I was doing. The fact is, I said, with the best imitation of diffidence I could muster up, 'the fact is, we have just had a new arrival out at my house. It's a boy, sir, and everything's all right. And really I hope you will overlook—'

"'Don't say a word,' he interrupted, cordially grasping by hand. 'I appreciate your feelings, and your apology is ample. Here's my card.'

"So that was the way I got out of it," added the department manager, grinning, "but it was a close shave, especially in view of the fact that I was and am a case-hardened old bachelor, with a special aversion to infants. The boss was very kind and cordial, and whenever he came to town afterward he never failed to ask how the youngster was getting on. He doesn't know any better to this day."—New Orleans Times-Democrat.

Boston's Slave Market.

In the old colonial days Boston had an "intelligence office," which was also a slave market, as appears from a notice published in February, 1770: "The intelligence office opposite the Golden Ball, lately kept by Benjamin Leigh, is now kept by Grant Webster. There is to be sold at said office West India and New England rum, wines of several sorts, male and female negroes, several secondhand chairs," etc.—New York Tribune.

Too Long to Wait.

"I disown you!" cried the angry parent. "I shall cut you off with a shilling!"

"Yes, sir," replied the erring son. "And might I have the shilling now?"—Stray Stories.

From the root of the pretty flower known as white bryony can be made a decoction which acts with magical effect in curing bruises of all descriptions. It is said to be peculiarly efficacious in healing a blackened eye.

What this Boy's Mother Says

He, been said by the mothers of

garding the wonderful curative
and strengthening qualities of

Dr. Miles' Nervine

HASTING, NER.
"Our little boy, Harry, had spasms for 3 years and we feared the disease would affect his mind. Though we doctored continually he grew worse and had ten spasms in one week. Our attention was directed to Dr. Miles' Nervine and we began its use. When he had taken the fourth bottle the spasms disappeared and he has not had one for five years. His health now is perfect." Mrs. B. M. TINDALL.

Dr. Miles' Remedies are sold
by all druggists on guarantee to
benefit or money refunded.

Dr. Miles Medical Co., Elkhart, Ind.

Man's Superiority.

One sees many curious phases of human nature in the safe deposit vaults of a banking institution—from the women who never by any chance know where their keys are and go through bag and pocketbook with reckless haste to the man who is not quite certain that he has locked his box and returns to the vault three or four times, puts his key in the lock, shakes it hard and finally goes away convinced that "all is well." But in recent experience with a new customer to whom I was renting a box the climax was reached. When I handed him the keys and said:

"Now, here are two keys. Separate them so that if you lose one you will have the other to admit you."

He quickly replied:
"Very well. I will put one on my key ring and lock the other up in my box."

And yet they tell us that men are more logical than women.—New Liverpool.

Great Industrial Discoveries.

It is not the boy who is surrounded by the best implements and tools that ingenuity can manufacture, but an Eli Whitney making a cotton gin in a cellar in the south with the simplest tools or a Canard whittling the model of a ship with a jackknife that makes great industrial discoveries.—Success.

No After Effects.

In case of headache, neuralgia, etc., to be relieved speedily and surely, take

Clinic Headache Wafers

the true heart tonic—the heart must be reached for relief. Easily taken and absolutely harmless. All druggists, 10 cts.

CLINIC PHARMACAL CO.
TORONTO, ONT.

PRETTY ROUGH SPORT.

A Cruel Game Played in the Camps
of Canadian Lumbermen.

So full of peril is the lumberman's life that even his sports and games must be played with danger or they will fall upon his taste. On the long winter nights a cruel game called "Jack, where be ye?" is frequently played.

The middle of the largest room in the camp is cleared. Two men are seated blindfolded and, having previously drawn lots for the first whack, they kneel on the floor. In his right hand each man holds a stout leather strap, in his left another leather strap, or a rope is held by the end, either close to the floor or, in some camps, actually on it. The latter strap, being kept taut by the combatants, guarantees a uniform distance between them. They are quite near enough to hurt each other severely, which not infrequently happens.

Now, the man who has been lucky enough to draw the first call shouts, "Jack, where be ye?" to which his opponent must immediately answer, "Here I be." Then the first man strikes at the place where he imagines his adversary to be with the heavy leather strap. If he hits his man, he is entitled to another blow—may call out again, "Jack, where be ye?" and the other must answer, "Here I be." This is continued till the first man misses, when he must take his turn at being struck.

The others form a ring around the two combatants, bets are made, and each faction encourages and applauds its chosen man. There are regular rounds, and the game is usually kept up until one or the other has had enough or perhaps till one is carried off the scene wounded. Hard heads can stand hard knocks, and volunteers for the sport are numerous. At the beginning there is generally no malice. A hard blow is struck, it is expected, it is the game. But it occasionally happens that the game develops into a fierce duel.—Pearson's.

A Parson's Pun.

A writer in The Cornhill Magazine credits the late Canon Bingham with the following bit of wit:

He was driving one day with other clergy to a clerical meeting, when the conversation turned upon the meaning of the two places they were nearing, Wool and Wareham, in the county of Dorset.

"How do you account for the origin of these names, Canon Bingham?" asked one of the party.

"Don't you know this is a sheep country," replied the canon, "and at Wool you wool the sheep and at Wareham you wear 'em?"

Not Sensitive.

Sophy (who accepted Mr. Charles Fleetwood the night before)—Does Mr. Fleetwood strike you as being a sensitive man, Pauline?

Pauline (who doesn't know of the engagement). Gracious, no! A man who has been rejected by 11 girls within six months and gets fat on it cannot be sensitive. Why, Sophy, what's the matter?

She had fainted.—London Fun.

OUR NEIGHBORS.

Orrville High School Visits its Green Oak.

REVIVAL MEETING AT JUSTUS.

Smoketown Appreciates the Benefits of a Daily Mail Service—New Pastor for Methodist Church at Wilnot—All the News of Urban Hill.

Green Oak, Feb. 19.—Indications are fair for more sleighing. Mrs. Bell Wyan is on the sick list. J. M. Brownman will hold a large public sale Tuesday.

The senior class of the Orrville high school was conveyed in a bob sled to the home of William Weaver of this place last Friday evening. A very enjoyable time was spent in pulling taffy and playing games. At a late hour they departed for their village well satisfied with their trip.

Many of our roads are blocked with snow.

A petition has been presented to the county commissioners for the opening of the public road running directly south.

Two young couples from Orrville on last Tuesday evening took a sleigh ride to the home of Albert Arnold to spend the evening. When ready to start for home they found that the horse and sleigh were missing. Telephoning to Orrville they found that the horse was there with the sleigh badly wrecked. They were compelled to hire a rig and be driven to Orrville.

JUSTUS. Justus, Feb. 19.—The people of Justus derived great benefits from the recent heavy snows while the revival meetings were in progress. Thirty-eight persons joined the church and there were 65 conversions. The Rev. Mr. Thompson conducted the meetings.

Mr. and Mrs. Baughman are convalescent, after serious illnesses.

Mr. Basky is preparing to move.

John Ricksecker is moving to Navarre.

Drilling for coal is still in progress on the Homer Baughman farm.

SMOKETOWN.

Smoketown, Feb. 19.—Mrs. Joseph Smith and daughter, Irene, of Canton, were the guests of the Copenhagen family Saturday and Sunday.

Miss Ursula Kline and friend, Sherman Oshaer, of New Berlin, spent Sunday with her aunt, Mrs. J. D. Liebholtz, at this place.

M. M. Trook, our genial mail carrier, made his first appearance on Saturday. Hereafter our people can enjoy a daily mail.

Our Backeye orchestra furnished music for a dance at Beach City on Saturday evening. A large delegation of our people, both old and young, went with them to an evening's sport.

John Benkeiser, of Justus, the wide-awake hay buyer, was seen in our burg on Saturday.

John N. Trook, sr., has decided to become a retired farmer and will locate in Navarre about April 1st.

William Liebholtz has returned from a week's visit at New Berlin.

A jolly party of young folks spent Tuesday evening at the home of Miss Nettie Liebholtz.

URBAN HILL.

North Lawrence, Feb. 19.—Cyrus Rowe, of Mansfield, spent Sunday of last week with his family of this place.

Miss Ada Buttermore, who is attending high school at Massillon, entertained her class mates Tuesday evening of last week.

Mrs. Hardgrove entertained a large number of her friends Thursday of last week.

The Rev. J. H. Miller, pastor of the U. B. Church at this place, was called to preach a funeral at New Rumley, Harrison county, last Sabbath.

A sleigh riding party attended singing at Poke Berry school house last Saturday evening. A merry time is reported.

James Buttermore is suffering with a stiff knee, obtained at the coal bank several days ago.

A merry crowd of young folks of this vicinity called at the home of Miss Edith Foltz of Canal Fulton last Wednesday evening. Oysters were served, after which all returned to their respective homes.

William Kitchen, of Canton, visited relatives of this vicinity a few days last week.

The Misses Nettie and Ruth Hardgrove visited friends at Canton last Sunday.

Miss Ruth Williamson made a trip to East Greenville last Sunday.

Mrs. Lizzie Zeigler was surprised by her relatives last Monday. The day was passed in the usual manner, after which all returned home.

WILMOT.

Wilnot, Feb. 18.—Miss Sophia Ny-

degger, of this place, and George Weaver, of Dayton, Ia., were married at noon today at the home of the bride's parents. They left immediately afterwards for Dayton where they will reside.

The Wilnot reading circle gave an enjoyable social and oyster supper Friday evening.

The Knights of Pythias will hold a banquet and ball Saturday evening.

The Rev. J. W. Moyer, the newly appointed pastor of the Methodist church, will this week move his family to this place from Brantford, Can., where they reside at present.

W. C. Wingire Saturday purchased the Kilmer farm for \$5,000. He will move upon the farm in the spring.

CAMPOREEK.

Camporeek, Feb. 18.—The people of this section appreciated the first rural mail delivery last Saturday and its convenience.

"Literary" will be in session at Cross Roads next Friday night.

Spelling school was in session at Goat Hill last Friday night. Miss Ella Boughman proved to be the best speller.

Albert Budd and family and Mr. and Mrs. John Hodgson visited friends in Canton last Sunday.

Thomas Snyder will do farm work for M. J. Donal this season.

John Fisher and M. Boughman are hauling stone for the C. L. & W. cut-off between Columbia and Navarre.

DALTON.

Dalton, Feb. 19.—There was talk of closing the Pokeberry district schools last week. The Rev. Mr. Buckmaster recently returned from Elkhart, Ind., where there is smallpox. The school authorities hearing that he had been exposed to the disease, sought to quarantine his home in this township and tried to prevent his son from attending school. When it was discovered that they had not the authority to quarantine the house, they wanted to close down the schools. Mr. Buckmaster solved the difficulty by keeping his son at home without the quarantine.

Noah Bixley fell from a sleigh, striking his face on the king-bolt yesterday. His upper lip was badly cut, and several teeth were knocked out.

A party of ladies left in a bob-sled for Chippewa township this morning.

NAVARRE.

Four sleds filled with Beach City young people arrived in town last evening. A dance was held at the Navarre house.

Navarre young people went in sleighs to the residence of Webster Lonas, south of town, Tuesday evening.

A party was given Monday evening at the residence in honor of Frank Mercie and Hanlan Whistler, whose birthday anniversaries fall on the same day. The party took place at the Mercie residence.

BOLIVAR.

Bolivar, Feb. 20.—Miss Loretta Weaver, of Canton, is visiting at the home of D. F. Lash.

Miss Malinda Elwick has returned home, after a three months' visit with relatives in Pittsburg.

Mrs. Christina App, of Akron, is here on business this week. It is reported that she sold her property to J. B. Ewing.

William Endriss was at home from Canton over Sunday.

Mr. and Mrs. Seldon Shaeffer, of Canton, are visiting relatives here this week.

Mrs. William Smith is visiting in Cleveland.

Miss Blanche Lash was at home from Canton over Sunday.

J. O. Peoples and family spent Friday with friends at Brilliant.

Mr. and Mrs. Charles Huth, of Canton, visited relatives here Sunday.

Last Friday night a sled load of guests surprised S. A. Lebold and family, at their home, one mile out of town. All report a fine time. One guest is reported as saying "There's no place like Sammie's to go to have a good, rousing old time."

Mrs. Stump, of Canton, spent Sunday with her mother, Mary A. Harmon.

Miss Mathilde App was at home from Canton over Sunday.

NEWMAN.

Newman, Feb. 20.—Valentine day this year was not observed as extensively as formerly in Newman.

Miss Lottie Roderick, of Massillon, was the guest of Miss M. E. Findley the past week.

Newman was well represented at the township Sunday school convention held in Canal Fulton last Sunday afternoon and evening. An excellent programme was rendered and many valuable thoughts were brought out in the well prepared papers that were read. The next meeting will be held in the M. E. church at North Lawrence. Time will be made known later.

Walter Doubledde and family have moved to Bentley, in Tuscarawas township, where he purchased a comfortable home.

The Washington birthday exercises given by our public school will be held in the school house on Friday evening, Feb. 21. Everybody is invited to come.

A pleasant surprise party was held at the home of Mr. and Mrs. Joseph

Griffith, in honor of their daughter Marie last Monday evening. Music and games were the amusement of the occasion, after which oysters were served.

The township school board of education held their regular meeting on Monday at Canal Fulton. The general routine business was transacted. Mr. A. C. Miller was elected to fill the vacancy in district No. 8. This being the meeting to hire teachers it developed the fact that there is a scarcity of teachers for this township and several districts are without applicants. A resolution was passed instructing the clerk to notify the county board of examiners of the condition of affairs and request them to furnish teachers to fill all vacancies.

Programmes for the convention of the Stark county school officials to be held at Canton high school on Saturday, Feb. 22, 1902, are being received in this vicinity. We believe that all those who are interested in education should attend this convention. Especially is this true for the township and rural districts, as it is expected that a course of school legislation is to be authorized and presented to the general assembly of Ohio for action, and no one knows the desires and requirements of the rural districts better than those who are directly interested and it behooves them to embrace this opportunity and make their wants known or be content to abide by the methods that may be adopted.

John A. Doubledde made a business trip to Warwick last Thursday. He reports that town on the eve of a big boom.

Mr. and Mrs. Ira Fisher, of Massillon, were in our village a short time Sunday.

Sleighb parties continue to go and come and merriment reigns supreme.

Most of our coal mines are running full time and the demand for coal seems to increase daily.

WANTED.—Man and wife without children on farm 4 miles south of Canton, to take care of horses and work about house. Write or call at 26 Cedar street, Massillon.

ROOMS CROWDED EVERY VISIT.

Dr. Schram, The Eminent German Specialist.

Will be at the Hotel Conrad, Massillon, Tuesday, Feb. 25

From 9 a. m. to 4 p. m.

SPECIALTIES—Diseases of the EYE, Ear, Nose, Throat and Stomach. Chronic Diseases require a searching diagnosis. General and Primary Diseases cured by an entirely new method. Dr. Schram's examinations are similar to those given in the eastern and foreign hospitals where thousands of patients are seen every month, and where the doctor studied and learned his profession.

No matter what the cause may be his long, varied and eminently successful career as a specialist in this field enables him to more thoroughly treat these diseases, than those whose knowledge is not the result of actual experience and scientific study.

The doctor has cured hundreds of cases of CATARRH, DEAFNESS and STOMACH DISEASES.

Consultation and Examination Free.
